

## EARLY RETURNS SHOW WOMEN DEFEATED

Complete Record of California  
State Historical and Antiquarian Society  
Big Majority

## SS NUMBER AMENDMENTS

Initiative and Referendum and  
Recall, Latter Including  
Judiciary, Adopted

SAN FRANCISCO, Oct. 10.—Returns on today's constitutional amendment election, received up to 11:30 p. m., confirm early indications that woman suffrage has been defeated, 1 that the initiative and referendum recall, which includes the judiciary, have on the other hand, received a most emphatic endorsement by the voters of the state. The endorsement of the powers of the state broad commission also undoubtedly is carried, though by a smaller majority.

The vote in favor of placing in the hands of the electors the power of recalling its public officials, including judges on the bench, was somewhat amazing, even to the friends of the proposed constitutional amendment. In San Francisco, which voted almost 2 to 1 against woman suffrage, more than 4 to 1 in favor of the all while the vote for the initiative referendum was almost equally divided.

With one-third of the state behind the vote stood:  
Woman suffrage—For, 37,170; against, 50,350.  
Initiative and referendum—For, 50,350; against, 37,170.

Recall—For, 22,997; against, 17,904.  
Judiciary—For, 22,997; against, 17,904.

Southern Part for Women.

Southern California voted heavily in favor of granting suffrage to women. In San Francisco and other big cities, and in the northern part of the state, a majority was polled against the proposed amendment. Today's election carried to a conclusion the campaign for measures started by Governor Hiram Johnson and the last legislature, which was overwhelmingly "aggressive" Republicanism.

Johnson's election and the election the legislature followed the adoption of the state of a direct primary law. Governor Johnson stumped the state advocacy of the proposed constitutional amendments.

One unique feature of the campaign was the prominence in the contest man's suffrage took. It was thought in the campaign started that the all with the judiciary involved, and initiative and referendum, would draw public attention, but the enthusiasm with which the women of the state entered into the campaign woman's suffrage practically made it a question over shadow everything else during the closing days.

## EGRO LYNCHED IN SOUTH

GREENVILLE, S. C., Oct. 10.—The negro who attacked a 11-year-old girl here yesterday morning was hanged from the Greenville penitentiary a posse near here this evening and to the scene of the crime. There, according to a telephone message, he was hanged to a telegraph pole and his body riddled with bullets.

Another Mob Member Executed.  
NIGHT CHESTER, Pa., Oct. 10.—A mob to secure a conviction by conviction with the burning to death of Walker, the negro, at Conestoga, failed again today, when a jury acquitted Oscar Lemmy, who was charged with being a member of the mob that lynched Walker.

## Promising Mining Camp Near Colorado Springs Is Opened

A new mining camp, second in Colorado only to Cripple Creek, promises to develop from recent discoveries on Mount Rattler, Douglas county, back Perry park, and only about 25 miles in Colorado Springs. It is about 10 miles northwest of Palmer Lake, on a new wagon road into the camp, a three-mile trail has been cut, and an outlet, and it is only eight to 10 miles from the Rio Grande railroad.

The main vein in the discovery is 50 feet wide, between walls containing five distinct ore streaks, from two and one-half to five feet width. The surface ore, as tested, runs from 63 1/2 per cent zinc, 31 to 32 1/2 in lead, and as high as 48 per cent lead. The country is mineralized throughout, and in big veins that can be traced miles. The discovery vein has been followed four miles along the surface top, and a few claims have been located. Several discoverers are prospecting a great concentrating mill in the district. Accounts of the new camp have been sent out since last Tuesday, October 3.

President William G. Brown of the New York Central Railroad company, and his wife, who recently arrived in the United States after an automobile tour of the old world. Mr. Brown was in England at the time of the great railroad strike and was impressed by the way the English government went about the settlement of the labor trouble.

## SEEK TO INCREASE SIGNAL EFFICIENCY

Railway Men Holding National  
Convention in This City  
About 700 in Attendance

The first session of the Railway Signal association opened yesterday morning at the Antlers hotel. Mayor Avery and Governor Shafroth addressed the delegates, welcoming them to the city and to the state. The morning business consisted of reports from committees in regard to the efficacy and desirability of signal systems now in use or proposed. The association, international in its scope, is divided into 15 committees of 25 men each. Each committee is subdivided, and each subdivision given a certain class of signals to report upon. The main idea of the association is to bring about a uniformity in signal systems throughout the world, and it is to that end that the committees work.

Matters of improvement in signal systems are also passed upon. The electric block-signal system is considered by the association as one of the most perfect protective systems evolved, yet the committees spend the time between meetings of the association in trying to improve upon the already highly satisfactory system. Reports were received from six committees yesterday and passed upon by the convention as a whole. After the convention, the suggestions approved will be voted upon by letter ballot by every member of the association, and if passed, will be adopted.

Last night was given over to a social session of the delegates. A smoker and Dutch lunch was held in the dining room of the Antlers, and moving pictures of the last convention in Richmond, Va., were shown by the Edison Film company. Music and other forms of entertainment were features.

The program today will be a repetition of the one followed yesterday. As many committees as possible will be heard from, and the general routine business of the convention will receive attention.

The delegates and their families number about 700.  
The women visitors were entertained by a trip through the Garden of the Gods yesterday afternoon. Fifteen large automobiles conveyed the party over the Mesa drive, through the Garden and to Manitou. This afternoon will be given over to shopping and trips about Colorado Springs.

and well-known mining men are enthusiastic over the outlook. Charles Waldron, a prominent Cripple Creek operator, already has located 15 claims on the south slope of Mount Rattler, and has started development work. Roy and Frank Waldron, the original discoverers, have secured their claims by performing the work required by law, and are preparing to patent them. The county may build a wagon road to the camp, but they declare that they will construct one themselves if necessary.

Roy and Frank are preparing to build a concentrating mill in the spring, having decided to use the Richards-Fuller jig and classifiers. They have a large lot of mineral on the dump stacked up to await the completion of the mill.  
All reports, and particularly those just received, agree that it is a wonderful mining region. It contains a world of mineral carrying high values in gold and silver, outside of the great lead-lime deposits.

Some of the prospects have yielded ore that assayed over 100 ounces silver to the ton. Other places give estimates of the new camp have been sent out since last Tuesday, October 3.

## WALSH PERTURBED BY FALSE RUMORS

WASHINGTON, Oct. 10.—Department of justice officials today declined to discuss the case of John R. Walsh, the Chicago banker, beyond the statement that it was not true that Walsh had been paroled.

This denial was made emphatic but announcement of the status of the case was not vouchsafed. It was stated that the parole papers had not yet reached Attorney General Wickersham.

LEAVENWORTH, Kan., Oct. 10.—This was a day of more than ordinary suspense to John R. Walsh. While he is naturally anxious because he knows his case now rests with the attorney general and he may hear his fate, at any time, false rumors that have reached him have perturbed him greatly. One of these, that he had been granted a parole, came to his ears today. He refused to believe the story, however, unless he heard from the prison warden that a favorable decision had been reached in the case.

When word came that the rumor was unfounded, Walsh calmly went back to his work in the newspaper clipping bureau.  
Reports of an alleged plan to release Walsh secretly has caused the former banker to confide to friends, it is understood, that he does not desire to leave the penitentiary under cover.

## CROP PROSPECTS IMPROVED WITH FAVORABLE WEATHER

WASHINGTON, Oct. 10.—Favorable growing weather, general rains, warmth and absence of widespread frost last month in most parts of the United States improved the prospects of nearly all crops which had not previously reached maturity, according to the department of agriculture's general review of crop conditions issued today.

As a consequence the condition of all crops combined on October 1, was approximately 13.38 per cent below average conditions of that date as against 12.2 below on September 1.

Condition of important crops on October 1, or at the time of harvest on the basis of 100 reporting average not normal conditions follows:

Apples 114.1; sugar cane, 106.6; lemons, 104.6; pears, 108.6; grapes, 104.4; sugar beets, 102.4; oranges, 101.6; cranberries, 100; rice, 99; peanuts, 98.2; buckwheat, 96.7; sweet potatoes, 94.2; corn, 93.8; flax, 88.2; potatoes, 82.7.  
Of the crops already reported known quantitatively it is estimated that as compared with the average annual production of the last five years, this year's production of wheat is 5.6 per cent less; oats, 6.7; barley, 12.3; rye, 6.5; and hay, 16.0 less. The production of beans was 53.1 per cent of an average; kaffir corn 49.5; tomatoes, 95.5; cabbage, 92; onions, 98.7; millet hay, 87.2; clover seed, 82.8; millet seed, 82.1.

The yield per acre of 6.99 per cent corn is estimated at 55.1 per cent and hops 50.4 of an average crop.

## METHODISTS INDORSE TAFT'S PEACE PLANS

TORONTO, Oct. 10.—The act of President Taft in bringing forward the peace proposal between England and America is one of the most courageous and magnificent attempts ever made by any statesman in the history of the world.

Shortly after this statement had been made to the Ecumenical Methodist conference today by Alderman T. Snape of Liverpool, England, the delegates unanimously adopted a resolution endorsing the proposed arbitration.

Dr. J. Scott Lidgett of London, England, director of the Methodist Times, said:

"The time is passing now every thing which relates to the welfare of mankind will be considered by tribunes of peace and adjustment. Yet human nature must be transformed before we can have universal peace."

## NEW TURN IN LORIMER CASE

WITNESS SAYS FOUR  
VOTES "SUSPICIOUS"

Former Secretary to Ex-Sen.  
Hopkins Calls Some of Fol-  
lowers "Weak Sisters"

CHICAGO, Oct. 10.—John M. Peffer, of Aurora, formerly secretary to ex-United States Senator Hopkins, gave a new turn to testimony in the Lorimer investigation before the senate committee today when he named four men whom he said he suspected of voting improperly or corruptly for Senator Lorimer.

According to Peffer the "weak sisters" as the witness, and Attorney Haneoy of counsel for Lorimer, termed them, were former State Senators B. F. Downing of Dixon, and William Fieldstock of Chicago, and former Representative Carl S. Burgett of New York, and Johnson Lawrence of Polk.

Of these four men Peffer testified that all but Fieldstock were followers of Mr. Hopkins.

"For the last month of that 1908 deadlock," said Peffer, "the whole idea of the Hopkins camp was to keep our men from being bought. I suspected several of the 'weak sisters' in our camp. They were men that I thought could be improperly influenced."

Asked by Attorney Haneoy to name some of the so-called "weak sisters" Peffer began by naming ex-Senator Downing.

Thought Him Easily Influenced.

"Did you have any suspicion at that time that Mr. Downing voted improperly or corruptly?" asked Haneoy.  
"Yes, I did," replied the witness. "He was the sort of man that the Lorimer forces were getting right along. He was drinking and was easily influenced."

Peffer then named Burgett and Lawrence. Asked why he suspected Fieldstock, the witness replied:

"I thought Fieldstock had his hand out all the time. I met him just before the opening of the legislative session. This occurred in Chicago and I asked him if he would vote for Mr. Hopkins for senator. To this he answered:

"It cost me just \$25 to get elected and I've got to get that money back somehow. I am not for Mr. Hopkins or anybody like him. I am working for myself."

Peffer said, however, he had no proof of corruption against any of the men.

Peffer related a conversation with former State Senator George H. McCormick, which he said took place at the Illinois hotel in Springfield just previous to the election of Lorimer.

"Senator McCormick told me that he had been offered \$25,000 to change his vote from Mr. Hopkins to Mr. Lorimer," testified Peffer.

## BAITSHIP TO PACIFIC COAST FOR RESERVE FLEET

WASHINGTON, Oct. 10.—Carrying out its policy to create a large naval reserve on the Pacific coast, the navy department yesterday placed the armored cruiser St. Louis in commission as a reserve ship at the Puget sound navy yard.

The St. Louis will have a crew of about one-fourth of a full complement, which may easily be expanded in case of emergency. The men will keep the ship in order and ready to sail at a moment's notice.  
Ultimately there will be from four to six cruisers in reserve at the Bremerton navy yard.

## CRUISER NEW ORLEANS AT MANILA RELIEVED

WASHINGTON, Oct. 10.—Commander S. S. Robinson of the bureau of steam engineering has been placed in command of the cruiser Cincinnati. The Cincinnati is about to leave the Mare Island navy yard for Manila to relieve the cruiser New Orleans, which will come here for repairs.

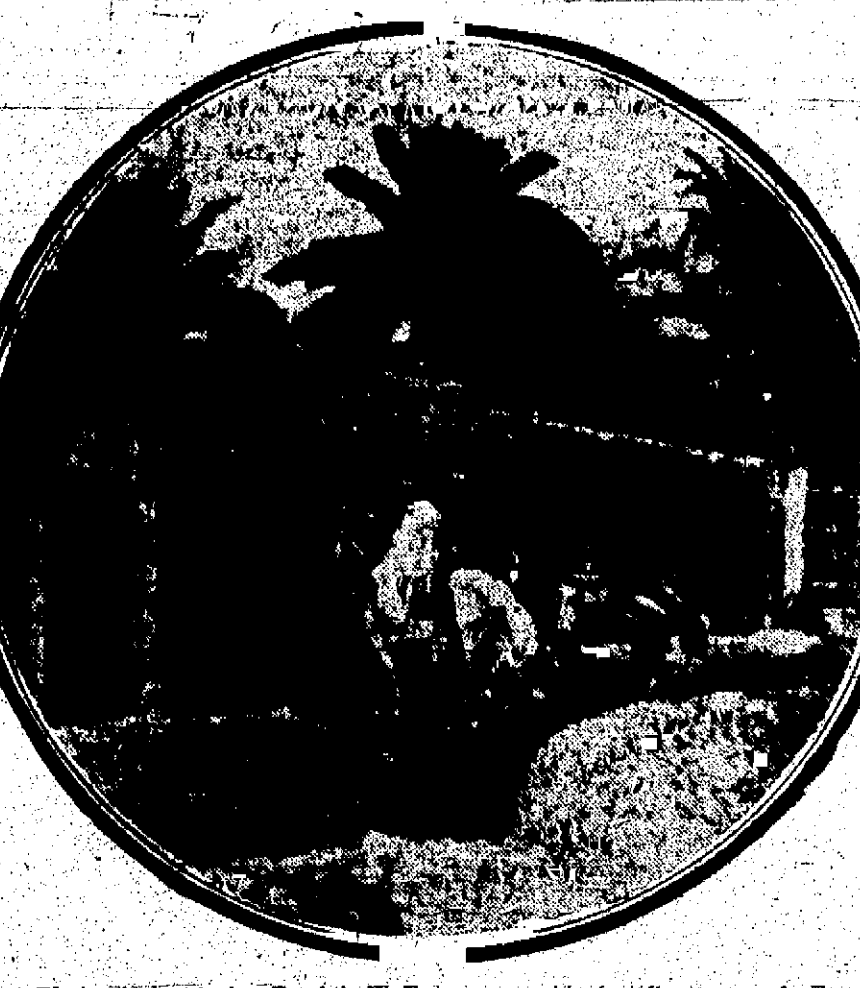

## COLORADO W. C. T. U. MEET HERE TODAY

Sessions at First Presbyterian  
Church—Many Resolutions  
and Addresses

The formal opening of the Colorado Woman's Christian Temperance union convention will be held in this city at the First Presbyterian church tonight. Speeches of welcome will be made by Mayor Avery, the Rev. William V. Panney, Mrs. Katherine Mowry, Mrs. W. B. Steele and Mrs. Edwin F. Crowley. The response will be made by Dr. Maude Safford of Denver. Following the addresses a reception will be held at the church.

The convention will hold its first session this morning at 8 o'clock with devotional services by Dr. Anna D. Chamberlain of this city. Then will follow the organization of the convention, reports of officers and the annual address by Mrs. Adrianna Hungerford of Denver. Thursday and Friday, the other days of the session, will be devoted to the discussion of the various resolutions.

Photograph of the Fonduk-El-Tajura, or old fortifications of Tripoli, which were demolished by the shells of the Italian warships, which raked the city with their guns.

## RODGERS BREAKS ATWOOD'S RECORD

MARSHALL, Mo., Oct. 10.—Exceeding the world's record for a cross-country aeroplane flight by 183 miles, and speeding through the air at times at the rate of 76 miles an hour, C. P. Rodgers landed here at 4:33 o'clock this afternoon on his voyage from New York to San Francisco. The former record, 1,265 miles, was made by Harry N. Atwood in a recent flight from St. Louis to New York. Rodgers has flown 1,388 miles, according to railroad mileage.

"It was a bully-day for a flight," said Rodgers, as he stepped from his plane. "If I had started earlier this morning I certainly would have tried to reach Kansas City tonight."

Rodgers will start for Kansas City, 35 miles distant, tomorrow morning. From a start made at Springfield, Ill., at 3:35 o'clock this morning, Rodgers flew 114 miles today. He made two stops at Nebo, Mo., and Thompson, Mo., at 7 o'clock the aviator replenished his supply of gasoline.

Started September 17.

NEW YORK, Oct. 10.—Rodgers started his transcontinental flight on September 17, at 4:25 o'clock in the afternoon from the racetrack at Sheepshead Bay.

He got away without mishap and sailed across New York city into the west. His first stop was at Middletown, 80 miles away. His good fortune deserted him on the following day, when his aeroplane was wrecked by striking a tree, and he narrowly missed being crushed under his engine in his fall. Both at Middletown and Selma, where he was again wrecked on September 24, by running into a barbed wire fence, he was delayed several days pending repairs to his machine.

He resumed his flight, and on September 28 traveled 205 miles to Kent, O. From that point his flights were comparatively without incident except that of October 1, when he flew through three rain storms in Indiana and several times came near being dashed to earth.

## FLOOD DAMAGE IN STATE LESS THAN WAS EXPECTED

DENVER, Oct. 10.—With the reestablishment of communication with the principal towns in the flood-swept districts of southwestern Colorado and northwestern New Mexico today, it became apparent that the damage will not be as heavy as previously estimated.

None of the principal towns report serious loss, and advices reaching them from outlying points minimize the destruction in the ranch country. The southern part of the Rio Grande, Southwestern railway, however, has suffered heavy damage, many miles of track having been destroyed. The system, which is a narrow gauge, is a part of the Denver & Rio Grande railroad. At the headquarters of the company here it was declared that no estimate of the loss can be made until engineers have inspected the damage. Rough guesses, however, place the damage to the railroad at approximately \$1,000,000. Estimates of the damage in general, owing to the wide area embraced in the flood districts, cannot be made with anything like accuracy.

Rumors of heavy loss of life were apparently set at rest today. The report of the drowning of 20 Navajo Indians at the Shiorock agency in New Mexico were officially denied today when communication was established at that point, as was also the report of the destruction of the eight buildings there. The buildings, however, are said to be damaged to the extent of \$50,000. The Indian mission school, maintained by the Methodist church near Farmington, N. M., is wrecked. The only authentic loss of life occurred there, a ranchman named Rice having been drowned when he returned to the building after having assisted in the rescue of the pupils and teachers.

While the area comprised in the flood districts is approximately 100 miles by 25 miles in extent, flood damage is restricted to comparatively narrow stretches.

## RAISE CORN FROM VERY OLD KERNELS

Product of Seeds Found Cliff  
Dwellers Ruins, This State,  
to Eastern Show

DENVER, Oct. 10.—Colorado corn, raised from kernels hundreds, and perhaps thousands, of years old, will be one of the features of the New York Land show, which opens in Madison Square Garden, November 3. This prehistoric corn may serve, if need be, to establish the claim that Colorado in point of age is the oldest corn-growing state in the country. It was grown from kernels discovered in the ruins of the cliff dwellers at Mancos, Colo.

Weld, Delta, Montrose, Mesa, and Routt counties, the San Juan country and the San Luis valley have already prepared exhibits to be sent to Denver, reports from the Colorado Agricultural college here, selecting from the different specimens of farm and orchard products those to be sent to New York as the Colorado exhibit.

The first of the exhibits are expected to be received here this week. Some apprehension is felt lest the damaging floods and general suspension of railroad travel in southwestern Colorado will make impossible the sending of the San Juan exhibits.

Following are the different sections of the state which will send exhibits to Denver, to be here assembled for the selection of the final exhibit for the New York Land show:

Weld county—Wheat, oats, sugar beets and small grain.

Delta county—Apples, fruit, and grains.

Mesa county—Fruits.

Montrose county—Apples, fruit and potatoes.

Routt county—Wheat, running, 67 bushels to the acre, and other grains.

San Juan county—Grain, fruits and prehistoric corn.

San Luis valley—Grains: sugar beets and grasses.

Oats will be sent from a field yielding from 100 to 115 bushels per acre.

Also barley from this section, which includes Conejos and Rio Grande counties.

Carbonade—Potatoes from the L. D. Sweet ranch.

Morgan county—Grains.

Sugar companies—Beets.

## RISS FUNERAL TOMORROW

NEW YORK, Oct. 10.—The funeral of the late Cornelius N. Bliss, ex-secretary of the interior and treasurer of the Republican National committee, will be held at 11 o'clock on Thursday at the Bliss residence.

(Continued on Page Two.)

## DISCUSS PLANS FOR COMING CONGRESS

Executive Committee Meets  
With Heads of Subbodies.  
Outlines Arrangements

## RECEPTION NEXT TUESDAY

Visitors and Delegates Will Be  
Well Taken Care of—Gov.  
ernor Is Coming

At a meeting of the executive committee and heads of other committees of the Dry Farming congress at the Acacia hotel yesterday noon, detailed plans for handling the delegates and visitors to the congress were completed. Dr. A. C. Magruder, chairman of the reception committee, appointed A. J. Lawton, R. S. Ellison, B. A. Banta and J. T. Burns as his aides. These men will head a committee of 200 business men which will devote its energies to caring for the visitors. Committees will meet all incoming trains, commencing Saturday, and will escort the visitors directly to Dry Farming headquarters, where they will register. Pages they will take the delegates in charge, and prior to them wherever they want to go. A line of carriages will stand before the headquarters, and a uniform rate of 25 cents will be charged for trips to any point within the city.

Special police protection has been provided for congress week. As many of the exhibitors will desire to sleep in their cars on the railway tracks, A. J. Lawton, chairman of the committee of safety, will cause the spaces in various railway yards which are assigned to the cars, to be made thoroughly sanitary. Extra lights will be hung about the railway yards for further protection to the visitors.

Officials of the congress have secured the Pike's Peak flag, one of the largest in the state, which will be draped above the main entrance to the exhibition booths. The work of preparing the booths has been pushed forward rapidly, and by this afternoon all exterior work will be completed.

General Reception Tuesday.

Tuesday evening a general reception will be given at the Antlers. Just who will stand in the receiving line has not been announced. As yet Dr. J. W. Donaldson is in charge of the affair. Governor Shafroth, who was here yesterday, announced that he will attend the congress Monday and Wednesday. A banquet at the Antlers hotel in honor of the foreign delegates, visiting college presidents and officers of the congress.

Postmaster Strahan said yesterday that delivery service will be maintained in the postoffice Sunday, October 22, for the benefit of delegates only. This is to enable those delegates who desire to leave the city the Sunday following the congress to secure their mail before going.

C. T. Root of Denver, chairman of the board of governors of the congress, was present at the meeting yesterday as was J. W. McNicol, chairman of the Lethbridge, Can., delegation. Mr. McNicol spoke briefly upon the desire of Lethbridge to secure the next congress upon the promise that this city would aid Lethbridge in the following season. Mr. McNicol declared that Lethbridge already has raised \$40,000 which will be used for the next congress if it is given to that city.

The Canadian exhibit and delegation will be one of the largest at the congress. The Alberta crowd has left nothing undone to secure the new

(Continued on Page Two.)

## Says Railways Violate Trust Law; Asks High Court to Act

WASHINGTON, Oct. 10.—Action by the supreme court of the United States to stop alleged violations of the Sherman antitrust law by the principal railroads and coal companies in the Pennsylvania anthracite regions, was urged by J. C. McReynolds, special assistant to the attorney general in a three-hour argument before that tribunal.

Attorney General Wickersham is expected to address the court tomorrow regarding the application of the Sherman law to the facts in the case, and George B. Johnson, a noted Philadelphia lawyer, and others will defend the corporations attacked.

Mr. McReynolds argued that the evidence presented by the government in the United States circuit court showed that there was a general combination between the railroads and coal companies to a monopoly in the transportation of anthracite coal since 1874.

He told the court the defendant railroads had manifested a purpose to effect such a combination. Inasmuch as the Pennsylvania constitution forbade the railroads to engage directly or indirectly in mining, he argued they had sought to avoid the law by buying stock in coal mining companies.

As evidence of a conspiracy, he called attention to the railroads buying stock in the Temple Iron company, and the latter company purchasing the "leading independent" coal concern, which was said to be lending support to a plan to build a railroad to compete with the defendant railroads.

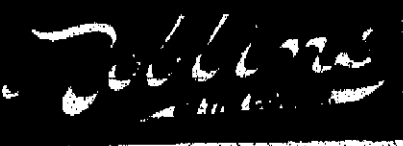

Pointing to the so-called 65 per cent deal, Mr. McNicol declared that companies have the required output of the independent mines during the life of the mines.

The fact that prices of coal sold by various companies varied for years, but subsequently became fixed at a high point and remained so for 10 years, he contended, was evidence of combination.

Everett Warren, counsel for the Temple Iron company, maintained that the Pennsylvania constitution forbade the railroads to engage in mining, and therefore the government's charge that the Temple Iron company was organized by the railroads to thwart the construction of an interstate carrier was unfounded.

## DISCUSS PLANS

(Continued From Page One.)

congress. A special train will carry  
about 150 delegates from Alberta to  
this city.

G. L. Adams, chief of the govern-  
ment exhibit, has arrived and is at the  
Acacia hotel with Mrs. Adams. Mr.  
Adams has not gathered the govern-  
ment exhibits as yet inasmuch as the  
cars will come from the various gov-  
ernment agricultural stations over the  
country. Part of the staff has ar-  
rived, but most of it still is on its  
way. The exhibit will consist chiefly  
of grains.

W. H. Graham, customs official, has  
taken a desk at Dry Farming head-  
quarters and is checking out the for-  
eign exhibits.  
Music for the opening day of the  
congress will be furnished by the High  
school glee club and orchestra. The  
orchestra and chorus have been train-  
ing for the event for some time.  
"America" will be one of the selections  
given, in which 60 voices will take  
part.

## PRESIDENT BREAKS LONG RAILWAY TRIP BY SAIL

TACOMA, Wash., Oct. 10.—President  
Taft varied the monotony of his long  
train trip by sailing across Puget  
sound from Seattle to the Bremerton  
navy yard and from Bremerton to Tac-  
oma. He will leave tomorrow for  
southeastern Washington and Ore-  
gon. This is his second consecutive  
night ashore, but the private car will  
be occupied again tomorrow.

At Bremerton, the president passed  
the old battleship Oregon, lying snug  
between the St. Louis and the Penn-  
sylvania, which lowered their above-  
her. All three were in the gray paint  
of war, but their guns were unmanned  
and silent. Thousands of jockies in  
dark blue manned the rails of the ves-  
sels by the yard and the bigges gave  
the presidential salute. As Mr. Taft  
stepped ashore the great guns were  
fired from a short battery, and as he  
boarded again the salutes of Tacoma  
she salute bellowed out their more.  
At Bremerton, Mr. Taft spoke  
briefly to a crowd of more than 1,000  
persons. He inspected the new dry  
dock in course of construction there,  
the largest in the world, the officers  
told him. In Tacoma the president  
was taken for an automobile trip  
through the business district and was  
well received. He was the guest of  
the city at dinner and spoke at the  
armory later. At the armory, the

## ROCKY MT. FUEL COMPANY EXPANDING ITS BUSINESS MARKED BY UNCERTAINTY

Arranges to Take Control of Northern  
Coal and Coke Company's Inter-  
ests—Involves \$1,500,000

DENVER, Oct. 10.—The Times says  
tonight:  
It was announced today on good au-  
thority that the entire property of the  
Northern Coal and Coke company will  
be bought by the Rocky Mountain  
Fuel company within the next few  
days. The sale involves over \$1,500,000.  
The Rocky Mountain Fuel company  
will assume charge of the property  
next Monday.

The holdings of the Northern com-  
pany comprise 10 coal mines and  
25,000 acres of coal lands in northern  
Colorado, chiefly around Louisville,  
Lafayette, Superior, Marshall and  
Erie. Four company stores are in-  
volved.

The reason assigned for the trans-  
action is that the Kountze brothers of  
New York and Denver, who are the  
principal owners of the Northern, have  
found the business too great a burden.  
The relations of the mine workers  
and the company will remain the same  
under the new ownership, it was said.  
The Northern company is one of the  
oldest in the state, having begun op-  
erations 15 years ago. The Rocky Moun-  
tain Fuel company is 20 years old.  
The joint properties will exceed 45,000  
acres of coal lands. The present hold-  
ings of the Rocky Mountain company  
are on the western slope and in the  
southern part of the state.

Two of the Kountze brothers are  
now on their way to Denver to close  
the deal.

At the dinner at the Tacoma hotel  
Mr. Taft spoke in humorous voice of  
the perils of his trip up Mount Ranier  
last Sunday.

Following his experience on the  
mountain near the 5,000-foot level Mr.  
Taft said he was going home deeply  
impressed with the necessity of the  
construction of better roads by the  
government. He also took cognizance  
of the protest of the Tacoma miners  
against his Sunday trip  
to the mountains by saying that he  
hoped at some future time to ascend  
the mountain "on a week day" over a  
road 18 feet in width.

## A. W. HENDERSON AN OFFICER

PUEBLO, Oct. 10.—The state as-  
sociation of commercial executives, com-  
posed of secretaries of various com-  
mercial organizations in Colorado in  
convention here today named the fol-  
lowing officers:  
President, J. B. Jenkins, Pueblo (re-  
elected); Thorndike Deland, Denver;  
Fred Shaffer, Rifle, and H. O. Clark,  
Lamar, vice presidents; A. W. Hen-  
derson, Colorado Springs, secretary;  
treasurer.

## TURKS REPULSED AFTER A LIVELY SCRIMMAGE

TRIPOLI, Oct. 10.—The Turks ap-  
parently do not intend to abandon  
Tripoli to the Italians without further  
resistance. For several days horse-  
men have been reconnoitering in the  
vicinity of the Italian outposts. Sev-  
eral times at night they have been  
discovered by the searchlights of the  
warships, and then shells drove them  
back into the hills.

Early this morning, 3,000 Turkish  
troops, with field guns, were discov-  
ered advancing in two columns with  
the evident intention of recapturing  
the town. A large body of natives  
marched with the troops, and present-  
ed a formidable array. The Italian  
commander, however, had an intima-  
cy that such an attempt probably  
would be made, and his men were pre-  
pared.

The Italian guns were well placed,  
and the Turks were met with a heavy  
artillery and rifle fire, to which they  
replied with equal energy. It was  
moonlight, and the fleet turned the  
searchlights on the contending forces.  
When the engagement was at its  
height, the battleships and cruisers  
joined in with the smaller batteries,  
directing the shells to cover the Italian  
front and flank.

For more than an hour the firing  
on shore was continuous, but about 3  
o'clock it slackened and the volleys  
ceased. The Turks retired, but in good  
order, although it is reported they suf-  
fered heavy loss.

Another body of Turks tried to turn  
the Italian eastern flank, but with-  
out success. The Italian casualties  
were slight.  
The fleet, pursuing the retreating  
Turks with a heavy shell fire until 6  
o'clock in the morning.

LOS ANGELES, Oct. 10.—Official  
uncertainty surrounded tonight every  
point of interest in the trial of Mc-  
Namara brothers, except the fact that  
it will begin tomorrow. Whether John  
J. McNamara, secretary of the Inter-  
national Association of Bridge and  
Structural Ironworkers, will then be  
placed on trial for murder in connec-  
tion with the Los Angeles Times ex-  
plosion of October 3, 1910, which cost  
\$1,100,000, or his brother, James J. Mc-  
Namara, will face trial on identical in-  
dicements was not made known offi-  
cially tonight because District Attorney  
John D. Frederick said the defense  
still has the technical right to have  
both men stand trial together. Until  
the expressed preference for separate  
trials is made which will probably not  
be before court opens, the prosecution  
will not designate which it will try  
first. The popular belief, and that of  
the defense, is that James McNamara  
will be selected.

Attorney Clarence S. Darrow, chief  
of counsel for the defense, said tonight  
no effort to delay the beginning of the  
case will be made.

"We shall ask for a change of judge,"  
said Mr. Darrow. "We expect that it  
will be denied and then the trial will  
go ahead."

The McNamara brothers, chatting in  
the corridor of the jail, from which  
could be seen the yet unfinished hall  
of records, in which the trial will be  
held, apparently expected no delay.

**Both of Brothers Ready.**  
"We've got to be ready," said John  
McNamara. "It does not make any  
difference to us, who of us is tried  
first."

Both men, at the request of news-  
paper men, were weighed and photo-  
graphed today, and George Gallagher,  
the jailer, checked their present  
weights against those recorded when  
they entered, April 26, the jail which  
they have not left since. James Mc-  
Namara, who then weighed 137 pounds,  
now weighs 142, and his brother John  
has gone up from 206 to 217 pounds.  
John did the talking for both, asking  
many questions on his own account.

"What is the sentiment about this  
case?" was his first one, specifying  
different localities. Most of his other  
queries were about machinery for  
gathering and distributing news in  
which he seemed keenly interested.

SPOKANE, Wash., Oct. 10.—Close  
to 200,000 Industrial Workers of the  
World, and other workmen affiliated  
with that organization are scheduled  
to quit work the day the trial of the  
McNamaras begins in Los Angeles.  
The cessation of work is to be intended  
as a protest against methods practiced  
in the arrest and extradition of the  
prisoners, according to local officials  
of the order. In addition to about 134,  
000 members of the Industrial Work-  
ers of the World, 25,000 textile workers  
in the New England states and some-  
thing like 18,000 members of the  
Brotherhood of Timber Workers, af-  
filiated with the Industrial Workers  
are expected to stop work.

## BEER, VINEGAR AND SOFT DRINKS WILL COME FIRST

WASHINGTON, Oct. 10.—An order  
for the immediate consideration of the  
perplexing questions:

"What is beer?" "What is vinegar?"  
and "What is a soft drink?" was passed  
this afternoon by the board of food  
and drug inspection, at a meeting in  
the office of Dr. Harvey W. Wiley,  
chief of the bureau of chemistry and  
chairman of the board.

The three pure food problems have  
been under consideration nearly two  
years, but members of the board have  
been unable to agree.

Vinegar will be the first subject con-  
sidered by the board. Long hearings  
were recently held on the subject of  
pure beer, and hearings have been  
held on both the vinegar and soft  
drink investigations. It is the conten-  
tion of Dr. Wiley that pure vinegar  
should be made only from cider, and  
that vinegars made from malt, sugar,  
molasses, wine and other ingredients  
should not be branded as "pure vine-  
gar."

Dr. Doellittle is said to hold similar  
views.

Action against soft drinks sold at  
soda fountains can apply only to the  
drinks as they are shipped in inter-  
state commerce. The government po-  
lice power will give Dr. Wiley the op-  
portunity, however, to enforce his rul-  
ings in Washington by confiscating  
impure drinks with the local soda  
fountains.

"The pure soft drink should contain  
only pure food extracts, sugar, spice  
and pure water," said Dr. Wiley, to-  
day. "If I had my way, no other soft  
drinks would be permitted on the mar-  
ket."

## RECOVER TWO MORE BODIES

AUSTIN, Pa., Oct. 10.—Two more  
bodies, recovered from the ruins of the  
flood today, makes a total of 24  
deaths, the result of the breaking of  
the Barrie Pulp and Paper company's  
dam, on September 30.

## BASED CHARGES ON HEARSAY

State Senator Blaine Admits He Can-  
not Substantiate Accusations  
Against Stephenson

MILWAUKEE, Oct. 10.—Charges  
that United States Sen. Isaac Stephe-  
nson of Wisconsin secured his election  
through bribery and he spent \$107,793  
corruptly to influence voters, were to-  
day put by the United States senate  
investigating committee squarely up to  
John Blaine, a state senator who  
brought the charges.

As a result Blaine admitted he had  
no information personally known by  
him to be true upon which to substan-  
tiate his charges. He admitted the  
charges were based largely upon  
newspaper editorials, political speeches  
and hearsay.

"And upon such information, you  
were willing to make allegations which  
might jeopardize a United States sena-  
tor and which, if proved true might  
send him to the penitentiary—is that  
true?" asked Sen. W. B. Heyburn, the  
chairman.

To this question Blaine made no an-  
swer other than that he thought he  
was performing a public duty by hav-  
ing an investigation of what he said  
was current report.

"Do you think that it is a public  
duty to bring charges against a United  
States senator without facts to sub-  
stantiate them?" asked Chairman Hey-  
burn.

"I thought so," replied the witness.  
Blaine was on the witness stand  
practically all day. It was he who  
originally brought the charges in the  
Wisconsin legislature, where two in-  
vestigations were held, one resulting  
favorably to the senator and one ad-  
versely.

## COLORADO W. C. T. U.

(Continued From Page One.)

voted mainly to reports upon temper-  
ance work in the various districts of  
the state.

Today's program follows:

**FIRST PRESBYTERIAN CHURCH.**  
Morning.  
8:00—Evangelistic service. "Thanks-  
giving." Dr. Anna Chamber-  
lain, Colorado Springs.

**BEST LIGNITE LUMP  
\$2.75 Per Ton**

PHONES 46 or 91

**The  
Portable Breeze**

For less than one cent an  
hour you can bring a refreshing  
breeze to any part of your house, store,  
office—any- where—by  
using a General Electric Fan.  
The Oscillating Type turns from  
side to side, and will perfectly  
ventilate the largest room.

It is also useful in drying the "wash" indoors on rainy days, and  
it is uniformly distributing heat from the radiator in winter.  
The General Electric Fan combines every essential feature  
efficiency, durability, economy and elegant appearance.  
We have a complete line of General Electric Fans  
displayed in our show room, or we will gladly  
have a representative call on you.

**Central Electric Co.**

# ENDS STOMACH TROUBLE AND INDIGESTION

Your Out-of-Order Stomach feels Fine Five Minutes After Taking a Little Diapasepin.

Take your sour, out-of-order stomach—or maybe you call it indigestion, dyspepsia, gastritis or catarrh of the stomach. It doesn't matter—take your stomach trouble right with you to your pharmacist and ask him to open a 50-cent case of Pepp's Diapasepin and let you eat one 22-grain Triangule and see if within five minutes there is left any trace of your former misery.

The correct name for your trouble is Food Fermentation—food souring. The digestive organs become weak, there is lack of gastric juice, your food is only half digested, and you become afflicted with loss of appetite, pressure and fullness after eating, vomiting, nausea, heartburn, griping in bowels, tenderness in the pit of stomach, bad taste in mouth, constipation, pain in limbs, sleeplessness, belching of gas, biliousness, sick headache, nervousness, dizziness or many other similar symptoms.

If your appetite is fickle and nothing tempts you, or you belch gas, or if you feel bloated after eating, or your food lies like a lump of lead on your stomach, you can make up your mind that at the bottom of all this there is but one cause: fermentation of undigested food.

Prove to yourself in five minutes that your stomach is as good as any. Take there is nothing really wrong. Stop this fermentation and begin eating what you want without fear of discomfort or misery.

Almost instant relief is waiting for you. It is merely a matter of how soon you take a little Diapasepin.

The proceeds will go to the athletic association. Miss Evelyn Lewis has charge of the presentation.

# CLEANING AND PRESSING

is done by the Elite Laundry.

# Biscuit Day in Colorado

Town Attracts Thousands

ERIE, Colo., Oct. 10.—This is biscuit day at Erie, and the town entertained several thousand visitors. Ten thousand biscuits, better than another ever made, spread with butter, were handed out by a bevy of the town's prettiest girls. Free hot coffee, pickles and apple butter made up the balance of the menu.

This afternoon a beauty contest was the feature.

The wheat from which the biscuits were made was raised in this section.

# FORMER INDIAN SERVICE

OFFICIAL GRANTED WRIT

SANTA FE, N. M., Oct. 10.—Judge John R. McFie last night granted a temporary writ of habeas corpus to W. E. Johnson of Denver and he was held under a \$1,000 bail for the hearing on Friday, when it will be decided whether the writ is to be permanent.

Johnson was arrested on the charge of criminal libel, preferred by Clinton J. Campbell of the United States Indian Industrial school here. Johnson was until recently in the Indian service.

# Strength Comes

Not from What You Eat, but from what You Digest.

# A Tablet Digests a Meal—Trial Package Free

Most people eat most foods without discrimination—it matters little what. Few stop to think what that food does for them. This is the first turn on the road to dyspepsia. Rich, fatty, indigestible food, the improper use of all stomach disorders from the slightest ache to the malignant cancer.

There is nothing more revolting than a dyspeptic stomach—a very real source of suffering, sending forth its poison throughout the entire system, depressing the brain, befouling the breath, souring the taste, deadening the muscles, incapacitating the liver and kidneys for their work, debilitating the heart, clogging the lungs and clogging the bowels.

All of these disagreeable and dangerous conditions are due to the improper digestion of food and the consequent accumulation of poisons. What can be expected? If the food lies in the stomach, it is the worst of all poisons. It is the first step in your watery plague, which is heartburn and pain, and the rest.

It is only one way to remove this condition. If the stomach refuses to digest your food, put something into it that will. Stuart's Dyspepsia Tablets are nothing but digestives. They are not a "cure" line. They work when the stomach is not.

Each tablet contains smooth papain, digestive, golden aloe and other digestive elements to reduce 1,000 grains of ordinary food to the proper consistency by assimilating into the blood.

Stuart's Dyspepsia Tablets are a totally pure. There is nothing harmful in them as shown in their endorsement by 40,000 physicians in the United States and Canada.

Ask your family physician his opinion of Stuart's Dyspepsia Tablets and if he is honest, he will state— "I believe that they will cure your stomach trouble whatever it may be, unless you have waited too long and have allowed your disorder to develop into cancer."

And today and here in your suffering. A 33-tablet package will be sent to your address upon request. The 50-cent size packages are for sale at your druggist's. P. A. Stuart Co., 146 J. Street, N. W., Washington, D. C.

# Colorado City DEPARTMENT

# PURCHASE ICE PLANT

George Birdsell and associates have purchased the Colorado City ice plant, formerly owned by Myers & Company. The building, which was partially destroyed by fire a few years ago, will be repaired immediately and the plant will be placed in first-class working order. The capacity will be increased to 25 tons a day.

# COLORADO CITY NEWS NOTES.

Johnston, Dentist, Exchange Bank Bldg.  
W. E. Adams of Steamship, La. spent yesterday in Colorado City.  
Nelson Eyer of Pueblo was a business visitor here yesterday.  
Mr. and Mrs. M. Bally of Buena Vista, Colo., are in this city visiting friends.  
Night Captain Claude Barnhardt left yesterday for a short visit in Pueblo.  
John Murphy of Colorado Springs, who broke jail here several months ago, was arrested late Monday night.  
J. W. Anderson and family have removed to this city from Sterling, Colo., and are living at 8 Colorado avenue. Mr. Anderson probably will engage in the real estate business here.

The Study club met Monday night at the home of Mrs. Kinney, 1215 Washington. Mrs. Ewing told the story of Oliver Wendell Holmes' life.

A force of men are at work opening the alley between the Midland right-of-way and St. Anthony street. It also is constructing the sidewalk approaches in that vicinity.

C. T. Rainer of Pueblo was recently arrested at a request of the sheriff's office on a charge of nonsupport of his family, who is said to be in destitute circumstances in Pueblo.

Mrs. Hogan of this city recently received a letter from her son, Harry Cheek, a baseball player in the New York league, saying that he is slowly improving from the injury received some time ago, when a pitched ball hit him on the head. He is still in a hospital at Albany, N. Y.

A. Kohn, proprietor of the Idle Hour theater, soon will commence work remodeling a building in the 500 block, Colorado avenue, for his vaudeville and picture shows. The theater will seat about 400, and the stage will accommodate stock companies. Several business men of this city are associated with Mr. Kohn in this enterprise. The new theater probably will be completed by January 1.

# Societies and Clubs

The O. E. S. sewing circle will meet this afternoon at 2 o'clock with Mrs. Kennedy, 721 East Boulder street. Visitors cordially invited.

The Woman's Missionary society of the First M. E. church, South, will hold its regular monthly meeting tomorrow afternoon at 2 o'clock in the Epworth league room of the church. A full attendance is desired.

Mrs. Rodda's district of the First Presbyterian church will meet with Mrs. McMillan, 1823 Colorado avenue, this afternoon at 2:30 o'clock.

The embroidery class of the junior department of the Y. M. C. A. will meet Saturday morning in Grace church parish house at 9:30 o'clock, instead of in the association rooms.

Officers of Centennial chapter, O. E. S., meet at Masonic temple this evening at 7:30 o'clock.

Mrs. Stocum's district of the First Presbyterian church will meet with Mrs. Curd, 715 North Wadsworth avenue tomorrow at 2 p. m.

The Woman's Building society of the Boulder Street Presbyterian church will hold an all-day work meeting at the church tomorrow. Members and friends invited.

The Elementary drawing class of the American Woman's league will meet this evening at the home of Mrs. C. H. Rag n, 1235 North Roger street. William Bancroft will direct the class, and all old and new members are requested to be present at 7:30 o'clock.

The Columbian Embroidery club meets this afternoon with Mrs. R. G. Harrison, 304 North Cedar street.

The domestic science department of the Woman's club will hold a meeting this afternoon at 3 o'clock at I. O. O. F. hall. Mrs. Anna K. Carroll will read a paper on the "Economic Interpretation of History."

Section Five of the First Christian church will host this afternoon with Mrs. Russell, 1618 Lincoln avenue.

The Rev. G. H. Stinson, pastor of the Methodist church of Colorado City, addressed the men of the line of the Brotherhood of the First M. E. church in the social room of the church last night. Dinner was served at 8:30 o'clock and a program was given during the evening.

# PROMISING MINING

(Continued From Page One.)  
dence of rich gold-bearing mineral or gold and silver combined.  
The ground is admirably suited for town building, with abundant timber for cabins and mine use, with 50 one of the parties interviewed declared, "the finest water I ever drank, and plenty of it for all purposes." "It is," said he, "an ideal location when mining can be carried on the year round, for the climate is mild and very little snow falls there."  
When asked if it was not too late for prospecting Mount Rattler this fall, he said: "No. Men can work at that

Pure all wool fabrics made up into the smartest styles in men's clothes.

The wearing qualities of these all wool fabrics is most satisfying. The tailoring is done by the most skillful tailors, and the prices are moderately fixed accordingly.

Suits and Overcoats,  
\$15 to \$50.

# CAN-DOWNS

most of this winter unless it should be extraordinarily severe. As to supplies, they can be had at well-provided stores in Perry park. Those going in now would do well to have blankets and a supply of grub to last until cabins can be built.

In a short time a road will be constructed, and one will be coming out for shipment to the smelters.

The altitude of the camp is 9,000 feet. The country where the mines are located is mineralized throughout, and in big veins that can be traced for miles. The one which Roy and Frank are opening is readily traceable for four miles along the surface outcrop. And there are many others, for the mountain is full of veins. No one has attempted to ascertain the mineral conditions in the neighborhood of Mount Rattler. It has not been prospected, but when exploring parties come to examine the surrounding country other marvels may be found.

As it stands today the region described seems to be one of the most attractive in the state for prospecting and mining. It is near Colorado Springs. One may go there and back in a day.

# ONE HUSBAND-SLAYER FREE

Charge of Murder, Laid Less Than An Hour

DENVER, Oct. 10.—In less than an hour after she had been placed on trial for the murder of her husband today, Mrs. Assunta Mollicone, the first of three husband-slayers to be placed on trial in the West Side court at this term, was a free woman. No testimony of any kind was introduced by the defense.

Mrs. Mollicone killed her husband, Pasquale Mollicone, September 18, by shooting him in the head after he had cruelly beaten her. The coroner's jury exonerated her for the shooting, but nevertheless she was held for trial on the murder charge.

Mrs. Eleanor R. Leventine and Mrs. Gertrude Gibson Patterson are the other two husband-slayers who are to be tried for murder.

# OWES HER HEALTH

To Lydia E. Pinkham's Vegetable Compound

Scottville, Mich.—"I want to tell you how much good Lydia E. Pinkham's Vegetable Compound and Sensitive Wash have done me. I live on a farm and have worked very hard. I am forty-five years old, and am the mother of thirteen children. Many people think it strange that I am not broken down with hard work and the care of my family, but I tell them of my good friend, your Vegetable Compound, and that there will be no backache and bearing down pains for them if they will take it as I have. I am scarcely ever without it in the house.

"I will say also that I think there is no better medicine to be found for young girls to build them up and make them strong and well. My eldest daughter has taken Lydia E. Pinkham's Vegetable Compound for painful periods and irregularity, and it has always helped her.

"I am always ready and willing to speak a good word for the Lydia E. Pinkham's Remedies. I tell every one I meet that I owe my health and happiness to these wonderful medicines!"—Mrs. J. O. Johnson, Scottville, Mich., N. D.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and to-day holds the record for the largest number of actual cures of all ailments.

## DISCUSS PLANS

(Continued From Page One.)

Congress. A special train will carry about 350 delegates from Alaska to this city.

G. L. Adams, chief of the government exhibit, thus arrived and is at the Acadia hotel. Mr. Adams has not yet gathered the government exhibits as yet, inasmuch as the cars will come from the various government agricultural stations over the country. Part of the stuff has been received, but most of it still is on its way. The exhibit will consist chiefly of grains.

W. H. Graham, customs official, has taken a desk at Dry Farming headquarters and is checking out the foreign exhibits.

Musical for the opening day of the congress will be furnished by the High school glee clubs and orchestra. The orchestra and chorus have been training for the event for some time. "America" will be one of the selections given, in which 50 voices will take part.

## PRESIDENT BREAKS LONG RAILWAY TRIP BY SAIL

TACOMA, Wash., Oct. 10.—President Taft varied the monotony of his long train trip by sailing across Puget sound from Seattle to the Bremerton navy yard and from Bremerton to Tacoma. He will leave tomorrow for southwestern Washington, and Oregon. This is his second consecutive night ashore, but the private car will be occupied again tomorrow.

At Bremerton the president passed the old battleship Oregon, lying between the St. Louis and the Pennsylvania, which towered high above her. All three were in the gray paint of war, but their guns were unmanned and silent. Thousands of Jackies in dark blue uniforms, the rank of the troops in the yard and the harbor, were in the yard and the harbor, were in the yard and the harbor.

At Bremerton, Mrs. Taft spoke briefly to a crowd of more than 1,000 persons. He inspected the new, dry dock in course of construction there, the largest in the world, the officers told him. In Tacoma, the president was taken for an automobile ride through the business streets and was well received. He was the guest of the city at dinner and spoke at the armory later. At the armory, the

## ROCKY MT. FUEL COMPANY M'NAMARA CASE STILL EXPANDING ITS BUSINESS MARKED BY UNCERTAINTY

Arranges to Take Control of Northern Coal and Coke Company's Interests—Involves \$1,500,000

DENVER, Oct. 10.—The Times says tonight:

It was announced today on good authority that the entire property of the Northern Coal and Coke company will be bought by the Rocky Mountain fuel company within the next few days. The sale involves over \$1,500,000. The Rocky Mountain fuel company will assume charge of the property next Monday.

The holdings of the Northern company comprise 10 coal mines and 25,000 acres of coal lands in northern Colorado, chiefly around Louisville, Lafayette, Superior, Marshall and Erie. Four company stores are involved.

The reason assigned for the transaction is that the Mountz brothers of New York and Denver, who are the principal owners of the Northern, have found the business too great a burden. The relations of the mine workers and the company will remain the same under the new ownership, it was said.

The Northern company is one of the oldest in the state, having begun operations 15 years ago. The Rocky Mountain fuel company is 20 years old. The joint properties will exceed 28,000 acres of coal lands. The present holdings of the Rocky Mountain company are on the western slope and in the southern part of the state.

Two of the Mountz brothers are now on their way to Denver to close the deal.

President discussed peace and arbitration and his appeal for support of the treaties with Great Britain and France now pending in the senate, met with quick response.

At the dinner at the Tacoma hotel Mr. Taft spoke in humorous voice of the perils of his trip up Mount Ranier last Sunday.

Following his experience on the mountain near the 9,000-foot level Mr. Taft said he was going home deeply impressed with the necessity of the construction of better roads by the government. He also took cognizance of the protest of the Tacoma ministerial alliance against his Sunday trip to the mountains by saying that he hoped at some future time to ascend the mountain "on a week day" over a road 10 feet in width.

## SKIRTS, 75c.

At the Elite Laundry dry cleaning department.

## A. W. HENDERSON AN OFFICER

PUEBLO, Oct. 10.—The state association of commercial executives, composed of secretaries of various commercial organizations in Colorado, in convention here today named the following officers:

President, J. B. Jenkins, Pueblo (retired); Thorndike, Deland, Denver; Fred Shaffer, Rifle; and J. O. Clark, Lamar, vice presidents; A. W. Henderson, Colorado Springs, secretary-treasurer.

## TURKS REPULSED AFTER A LIVELY SCRIMMAGE

TRIPOLI, Oct. 10.—The Turks apparently do not intend to abandon Tripoli to the Italians without further resistance. For several days horns have been resounding in the vicinity of the Italian outposts. Several times at night they have been discovered by the searchlights of the warships, and then shells drove them back into the hills.

Early this morning, 3,000 Turkish troops, with field guns, were discovered advancing in two columns, with the evident intention of recapturing the town. A large body of natives marched with the troops, and presented a formidable array. The Italian commander, however, had an intuition that such an attempt probably would be made and his men were prepared.

The Italian guns were well placed, and the Turks were met with a heavy artillery and rifle fire, to which they replied with equal energy. It was a struggle of the fiercest kind, and the fighting continued for several hours.

For more than an hour the firing on shore was continuous, but about 2 o'clock it slackened and the volleys ceased. The Turks retired, but in good order, although it is reported they suffered heavy loss.

Another body of Turks tried to turn the Italian eastern flank, but without success. The Italian casualties were slight.

The fleet pursued the retreating Turks with a heavy shell fire until 6 o'clock, when the morning.

LOS ANGELES, Oct. 10.—Official uncertainty surrounded tonight every point of interest in the trial of McNamara brothers, except the fact that it will begin tomorrow. Whether John J. McNamara, secretary of the International Association of Bridge and Structural Ironworkers, will then be placed on trial for murder in connection with the Los Angeles Times explosion of October 1, 1910, which cost 31 lives, or his brother, James E. McNamara, will face trial on identical indictments was not made known officially tonight because District Attorney John D. Fredericks said the defense still has the technical right to have both men stand trial together. Until the expressed preference for separate trials is made which will probably not be before court opens, the prosecution will not designate which it will try first. The popular belief, and that of the defense, is that James McNamara will be selected.

Attorney Clarence S. Darrow, chief of counsel for the defense, said tonight no effort to delay the beginning of the case will be made.

"We shall ask for a change of judge," said Mr. Darrow. "We expect that it will be denied and then the trial will go ahead."

The McNamara brothers, chatting in the corridor of the jail, from which could be seen the yet unfinished hall of records, in which the trial will be held, apparently expected no delay.

Both of Brothers Ready.

"We've got to be ready," said John McNamara. "It does not make any difference to us, who of us is tried first."

Both men, at the request of newspaper men, were weighed and photographed today, and George Gallagher, the jailer, checked their present weights against those recorded when they entered, April 29, the jail which they have not left since. James McNamara, who then weighed 137 pounds, now weighs 142, and his brother John has gone up from 208 to 217 pounds. John did the talking for both, asking many questions on his own account.

"What is the sentiment about this case?" was his first one, specifying different localities. Most of his other queries were about machinery for gathering and distributing news in which he seemed keenly interested.

SPOKANE, Wash., Oct. 10.—Close to 200,000 Industrial Workers of the World and other workmen affiliated with that organization are scheduled to quit work the day the trial of the McNamara begins in Los Angeles. The cessation of work is to be intended as a protest against methods practiced in the arrest and extradition of the prisoners, according to local officials of the order. In addition to about 184,000 members of the Industrial Workers of the World, 25,000 textile workers in the New England states and something like 18,000 members of the Brotherhood of Timber Workers, affiliated with the Industrial Workers are expected to stop work.

## BEER, VINEGAR AND SOFT DRINKS WILL COME FIRST

WASHINGTON, Oct. 10.—An order for the immediate consideration of the perplexing questions:

"What is beer?" "What is vinegar?" and "What is a soft drink?" was passed this afternoon by the board of food and drug inspection, at a meeting in the office of Dr. Harvey W. Wiley, chief of the bureau of chemistry and chairman of the board.

The three pure food problems have been under consideration nearly two years, but members of the board have been unable to agree. Vinegar will be the first subject considered by the board. Long hearings were recently held on the subject of pure beer, and hearings have been held on both the vinegar and soft drink investigations. It is the contention of Dr. Wiley that pure vinegar should be made only from cider, and that vinegars made from malt, sugar, molasses, wine and other ingredients should not be branded as "pure vinegar."

Dr. Doellittle is said to hold similar views.

Action against soft drinks sold at soda fountains can apply only to the drinks as they are shipped in interstate commerce. The government police power will give Dr. Wiley the opportunity, however, to enforce his rulings in Washington by confiscating impure drinks with the local soda fountains.

"The pure soft drink should contain only pure food extracts, sugar, spice and pure water," said Dr. Wiley, today. "If I had my way, no other soft drinks would be permitted on the market."

## RECOVER TWO MORE BODIES

ACUTIN, Pa., Oct. 10.—Two more bodies, recovered from the ruins of the flood today, making a total of 66 deaths, the result of the breaking of the Baines, Pulp and Paper company's dam, on September 20.

## BASED CHARGES ON HEARSAY

State Senator Blaine Admits He Can not Substantiate Accusations Against Stephenson

MILWAUKEE, Oct. 10.—Charges that United States Sen. Isaac Stephenson of Wisconsin secured his election through bribery and he spent \$107,728 corruptly to influence voters, were today put by the United States senate investigating committee squarely up to John Blaine, a state senator who brought the charges.

As a result Blaine admitted he had no information personally known by him to be true upon which to substantiate his charges. He admitted the charges were based largely upon newspaper editorials, political speeches and hearsay.

"And upon such information, you were willing to make allegations which might jeopardize a United States senator, and which, if proved true might send him to the penitentiary—is that true?" asked Sen. W. B. Hearburn, the chairman.

To this question Blaine made no answer other than that he thought he was performing a public duty by having an investigation of what he said was current report.

"Do you think that it is a public duty to bring charges against a United States senator without facts to substantiate them?" asked Chairman Hearburn.

"If I thought so," replied the witness. "Blaine was on the witness stand practically all day. It was he who originally brought the charges in Wisconsin legislature, where two investigations were held, one resulting favorably to the senator and one adversely."

## ENDS STOMACH TROUBLE AND INDIGESTION

Your Out-of-Order Stomach Feels Fine Five Minutes After Taking a Little Diapepsin.

Take your sour, out-of-order stomach—or maybe you call it indigestion, dyspepsia, gastritis or catarrh of the stomach; it doesn't matter—take your stomach trouble right with you to your Pharmacist and ask him to open a 40-cent case of Pepp's Diapepsin and let you eat one 22-grain Triangular and see if within five minutes there is left any trace of your former misery.

The correct name for your trouble is Food Fermentation—food souring; the Digestive organs become weak; there is lack of gastric juice; your food is only half digested, and you become affected with loss of appetite, pressure and fullness after eating, vomiting, nausea, heartburn, cramping in bowels, tenderness in the pit of stomach, bad taste in mouth, constipation, pain in limbs, sleeplessness, belching of gas, bloatedness, sick headache, nervousness, dizziness or many other similar symptoms.

If your appetite is fickle and nothing tempts you, or you belch gas, or if you feel bloated after eating, or your food lies like a lump of lead on your stomach, you can make up your mind that at the bottom of all this there is but one cause—fermentation of undigested food.

Give to yourself, in five minutes that your stomach is as good as any; that there is nothing really wrong. Stop this fermentation and begin eating what you want without fear of discomfort or misery.

Almost instant relief is waiting for you. It is merely a matter of how soon you take a little Diapepsin.

The proceeds will go to the athletic association. Miss Evelyn Lewis has charge of the presentation.

## CLEANING AND PRESSING

Is done by the Elite Laundry.

Over 5,000,000 acres of land are under tobacco cultivation in the world.

## Biscuit Day in Colorado

Town Attracts Thousands

ERIE, Colo., Oct. 10.—This is biscuit day at Erie, and the town entertained several thousand visitors. Ten thousand biscuits, better than mother ever made, spread with butter, were handed out by a crew of the town's prettiest girls. Free hot coffee, pickles and apple butter made up the balance of the menu.

This afternoon a horse-racing program and a girl beauty contest were the features.

The wheat from which the biscuits were made was raised in this section.

## FORMER INDIAN SERVICE

OFFICIAL GRANTED WRIT

SANTA FE, N. M., Oct. 10.—Judge John P. McElie last night granted a temporary writ of habeas corpus to W. E. Johnson of Denver and he was held under a \$1,000 bail for the hearing on Friday, when it will be decided whether the writ is to be permanent.

Johnson was arrested on the charge of criminal libel preferred by Clinton J. Crandall of the United States Indian Industrial school here. Johnson was until recently in the Indian service.

## Strength Comes

Not From What You Eat, But From What You Digest.

A Tablet Digests a Meal—Trial Package Free.

Most people eat most foods without discrimination—it matters little what. Few stop to think what that food does for them. This is the first turn on the road to dyspepsia. Reckless disregard of the proper choice of foods, rapid eating and improper mastication, are the unquestioned causes of all stomach disorders from the slight ache to the malignant cancer.

There is nothing more revolting than a dyspeptic stomach, a very real source of suffering, sending forth its poison throughout the entire system, poisoning the brain, befouling the breath, souring the taste, deadening the muscles, incapacitating the liver and kidneys for their work, debilitating the heart, choking the lungs and clogging the bowels.

All of these disagreeable and dangerous conditions are due to the improper digestion of food and the consequent assimilation of poison. What else can be expected? If the food lies in the stomach, if the system is constipated, fermentation is the natural outcome. It shows itself in sour watery risings, belchings, heartburn and painful flatulency.

There is only one way to remove this condition. If the stomach refuses to digest your food, put something into it that will start the digestive system. Tablets are nothing but digestives. They are not a medicine. They work when the stomach will not.

Each tablet contains enough pepsin, diastase, golden seal and other digestive elements to reduce 3,000 grains of ordinary food to the proper consistency for assimilation into the blood.

Stuart's Dyspepsia Tablets are absolutely pure. There is nothing harmful in them as shown in their endorsement by 40,000 physicians in the United States and Canada.

Ask your family physician his opinion of Stuart's Dyspepsia Tablets and if he is honest toward you he will state positively that they will cure your stomach trouble whatever it may be, unless you have waited too long and have allowed your disorder to develop into a chronic condition.

Act today and begin to feel your suffering. A free trial package will be sent to you at once upon request. The 50-cent size packages are for sale at your drugstore. F. A. Stuart Co., 160 Stuart Bldg., St. Paul, Minn.

## Colorado City DEPARTMENT

PURCHASE ICE PLANT

George Birdsell and associates have purchased the Colorado City ice plant, formerly owned by Myers & Company. The building, which was partially destroyed by fire two years ago, will be repaired immediately and the plant will be placed in first-class working order. The capacity will be increased to 20 tons a day.

## COLORADO CITY NEWS NOTES.

Johnston, Dentist, Exchange Bank Bldg. W. E. Adams of Stansbury, Ia., spent yesterday in Colorado City.

Nelson Eyer of Pueblo, was a business visitor here yesterday.

Mr. and Mrs. M. Daily of Buena Vista, Colo., are in this city visiting friends.

Night Captain Claude Barnhardt left yesterday for a short visit in Pueblo.

John Murphy of Colorado Springs, who broke jail here several months ago, was arrested late Monday night.

J. W. Anderson and family have removed to this city from Sterling, Colo., and are living at 4 Colorado avenue. Mr. Anderson probably will engage in the real estate business here.

The Study club met Monday night at the home of Mrs. Kinney, 1218 Washington. Mrs. Ewing told the story of Oliver Wendell Holmes' life.

A force of men are at work opening the alley between the Midland right-of-way and St. Anthony street. It also is constructing the sidewalk approaches in that vicinity.

C. T. Rainer of Pueblo, was recently arrested at a request of the sheriff's office on a charge of nonsupport of his family, who is said to be in destitute circumstances in Pueblo.

Mrs. Roxan of this city recently received a letter from her son, Harry Cheek, a baseball player in the New York state league, saying that he is slowly improving from the injury received some time ago, when a pitched ball hit him on the head. He is still in a hospital at Albany, N. Y.

A. Kohn, proprietor of the Idle Hour theater, soon will commence work remodeling a building in the 500 block, Colorado avenue, for his vaudeville and picture shows. The theater will seat about 400, and the stage will accommodate stock companies. Several business men of this city are associated with Mr. Kohn in this enterprise. The new theater probably will be completed by January 1.

## Socials and Clubs

The O. E. S. sewing circle will meet this afternoon at 2 o'clock with Mrs. Kennedy, 727 East Boulder street. Visitors cordially invited.

The Woman's Missionary society of the First M. E. church, South, will hold its regular monthly meeting tomorrow afternoon at 2 o'clock in the Epworth league room of the church. A full attendance is desired.

Mrs. Rodda's district of the First Presbyterian church will meet with Mrs. McMillan, 1523 Colorado avenue, this afternoon at 2:30 o'clock.

The embroidery class of the junior department of the Y. M. C. A. will meet Saturday morning in Grace church parish house at 9:30 o'clock, instead of in the association rooms.

Officers of Centennial chapter, O. E. S., meet at Masonic temple this evening at 7:30 o'clock.

Mrs. Slocum's district of the First Presbyterian church will meet with Mrs. Curd, 115 North Wabash avenue tomorrow at 3 p. m.

The Woman's Building society of the Boulder Street Presbyterian church will hold an all-day work meeting at the church tomorrow. Members and friends invited.

The Elementary drawing class of the American Woman's league will meet this evening at the home of Mrs. G. H. Regan, 1235 North Royce street. William Bancroft will direct the class, and all old and new members are requested to be present at 7:30 o'clock.

The Columbian Embroidery club meets this afternoon with Mrs. R. G. Harrison, 908 North Cedar street.

The domestic science department of the Woman's club will hold a meeting this afternoon at 2 o'clock at J. O. O. F. hall. Mrs. Anna K. Carroll will read a paper on the "Economic Interpretation of History."

Section Five of the First Christian church will meet this afternoon with Mrs. Russell, 1410 Lincoln avenue.

The Rev. G. H. Smith, pastor of the Methodist church of Colorado City, addressed the men at a meeting of the Brotherhood of the First M. E. church, in the social rooms of the church, last night. Dinner was served at 4:30 o'clock and a program was given during the evening.

## PROMISING MINING

(Continued From Page One.)

discovery of rich gold-bearing mineral deposits and silver.

The ground is admirably suited for town building, with abundant timber for heating and mine use, with one of the parties interviewed declared, "the finest water I ever drank and plenty of it for all purposes." It is said to be an ideal location where mining can be carried on the year round, for the climate is mild and very little snow falls there.

When asked if it was not too late for prospecting Mount Butler this fall, he said: "No. Men can work at that

Pure all-wool fabrics made up into the smartest styles in men's clothes.

The wearing qualities of these all-wool fabrics is most satisfying. The tailoring is done by the most skillful tailors, and the prices are moderately fixed accordingly.

Suits and Overcoats, \$15 to \$50.

**CAN-DOWNS**

most of this winter unless it should be extraordinarily severe. As to supplies, they can be had at well-provided stores in Perry park. Those going in now would do well to have blankets and a supply of grub to last until cabins can be built.

In a short time a road will be constructed and one will be coming out for shipment to the smelters.

The altitude of the camp is 3,000 feet. The country where the mines are located is mineralized throughout, and in big veins that can be traced for miles. The one which Roy and Frank are opening is readily traceable for four miles along the surface outcrop. And there are many others, for the mountain is full of veins. No one has attempted to ascertain the mineral conditions in the neighborhood of Mount Butler. It has not been prospected, but when exploring parties come to examine the surrounding country other marvels may be found.

As it stands today the region described seems to be one of the most attractive in the state for prospecting and mining. It is near Colorado Springs. One may go there and back in a day.

## ONE HUSBAND-SLAYER FREE

Trial of Mrs. Assunta Mollicone, on Charge of Murder, Lasted Less Than An Hour

DENVER, Oct. 10.—In less than an hour after she had been placed on trial for the murder of her husband today, Mrs. Assunta Mollicone, the first of three husband-slayers to be placed on trial in the West Side court at this term, was a free woman. No testimony of any kind was introduced by the defense.

Mrs. Mollicone killed her husband, Pasquale Mollicone, September 18, by shooting him in the head after he had cruelly beaten her. The coroner's jury exonerated her for the shooting, but nevertheless she was held for trial on the murder charge.

Mrs. Eleanor R. Leventine and Mrs. Gertrude Gibson Patterson are the other two husband-slayers who are to be tried for murder.

## OWES HER HEALTH

To Lydia E. Pinkham's Vegetable Compound

Scottville, Mich.—"I want to tell you how much good Lydia E. Pinkham's Vegetable Compound and Sanative Wash have done me. I live on a farm and have worked very hard. I am forty-five years old, and am the mother of thirteen children. Many people think it strange that I am not broken down with hard work and the care of my family, but I tell them of my good friend, your Vegetable Compound, and that there will be no backache and bearing down pains for them if they will take it as I have. I am scarcely ever without it in the house.

"I will say also that I think there is no better medicine to be found for young girls to build them up and make them strong and well. My eldest daughter has taken Lydia E. Pinkham's Vegetable Compound for painful periods and irregularity, and it has always helped her.

"I am always ready and willing to speak a good word for the Lydia E. Pinkham's Remedies. I tell everyone I meet that I owe my health and happiness to these wonderful medicines."

—Mrs. J. G. Johnson, Scottville, Mich., U. S. A.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and today holds the record for the largest number of actual cures of female diseases.

WEDNESDAY, OCTOBER 11, 1911.

**TIME FOR A SHAKEUP**

COLORADO SPRINGS needs, and needs badly, a police shakeup beginning at the very top of the Department and extending down to the bottom. We doubt whether such a painful exhibition of utter incompetency was ever before made in this town as has been seen during the past six months. It is not merely the stupidity revealed in the failure to capture any of the burglars who have been operating on a wholesale plan or to recover a single dollar's worth of the stolen goods; nor is it the inefficient handling of the atrocious Dale Street murder case. These are the two most conspicuous instances of police incompetency, but scarcely a day passes without some incident to show with how little intelligence the Department is managed. They range in importance from the big crimes here noted to toleration of petty infractions of ordinances which in themselves may seem trivial but nevertheless are intimately concerned with the safety and comfort of the public.

A thousand times a day the ordinance governing the speed of automobiles and motorcycles is violated, and everybody knows it except the police whose duty it is to make arrests. Invariably they are deaf, dumb and blind, and if the combination Commissioner and Chief of Police is even aware of the existence of a speed ordinance he has carefully concealed the fact.

The ordinance which forbids spitting on the sidewalks is a dead letter. One cannot walk fifty feet on any street without seeing disagreeable evidence of its violation, but whoever heard of a policeman even cautioning a spitter, much less placing him under arrest?

There is an ordinance which requires that sidewalks in the business section shall be washed off before eight o'clock each morning. Will some early riser step forward and venture a guess as to the proportion of people who obey this ordinance? It is an important law because its strict enforcement would promote both health and comfort by getting rid of much of the germ-laden dust on the sidewalks. But nine-tenths of the walks are not washed at all, except at rare intervals or when the rain does it, and most of the remaining one-tenth are washed late in the forenoon when the streets are filled with people.

It is plain that the whole Police Department is in a state of demoralization. Doubtless it contains many honest and capable officers but the present incompetency of the force as a whole is the logical result of the utter lack of intelligence with which the affairs of the Department are directed. We cannot expect the personnel to remain unaffected by the constant cat-and-dog fighting of their superiors. For nearly three months now Mayor Avery and Commissioner Himebaugh have been quarreling like school children to decide who shall be the real boss of the Police Department. With characteristic stubbornness the Mayor insists on his right to appoint a chief of his own choosing, which Mr. Himebaugh as stubbornly denies, and the result is a deadlock which has disgraced the whole Department.

The situation would be ludicrous if it were not so serious, for Commissioner Himebaugh is no more fit to assume the actual direction of the Police Department than Jack Johnson is to run a theological seminary. He is wholly lacking in temperament, training and capacity, and it is both his and the Mayor's plain duty to end the present impossible situation by reaching an agreement on the appointment of some capable man as police chief.

The Gazette has no candidate for the place, but if a proper effort is made the right man can be found. If Mr. Himebaugh had begun the search two months ago, when the vacancy occurred, he certainly could by this time have found a trained police executive who could reasonably be expected to give satisfaction as head of the local Department. There are plenty of men in the country and there is no reason to suppose that such a one could not be induced to come here. But apparently Mr.

Himebaugh has been afraid to look beyond the borders of Colorado Springs.  
 The present state of affairs is intolerable. This is not a wild-and-woolly frontier town in which it should be necessary for the citizens to carry guns for self-protection or to bar and bolt every door and window at night to prevent the invasion of their homes by marauders. But a long succession of unpunished burglaries has wrought the public mind into an extremely nervous condition, and the people are not in a mood to put up with a continuance of the present inadequate police protection. It is inexcusable and unjustifiable, and if the two officials who are responsible for it cannot summon up enough patriotism to lay aside their petty jealousies and remedy the condition they ought to step aside and make way for somebody who can and will do better.

**OPEN PARLIAMENT**

WHY?  
 To the Editor of The Gazette:  
 I am compelled daily to walk by the grocery store at 24 North Tejon street. The place is unsightly and a disgrace to a second-class village. The sidewalk is littered with refuse and refuse. The present narrow sidewalk is rendered almost impassable and often congested with pedestrians. Isn't this against the ordinance? Why does the policeman on the beat wink at it? What's the graft?  
 INDIGNANT CITIZEN.  
 Colorado Springs, October 10.

**THE STRATTON HOME**

To the Editor of The Gazette:  
 We all look at the Stratton home as public property, therefore, some remarks regarding same will not be out of order. Several years have past since Mr. Stratton died, and no work has yet been started on the home proper, giving rise to occasional comments, which, however, are unfair, for anyone who has kept posted on the contentions the executors of the Stratton will had known that they have done all they could and have accomplished a great deal in settling the many suits against the Stratton estate. The character of the three executors is a guarantee of the faithful performance of their charge. These men represent a good deal of wealth and business of their own, and naturally surround themselves with practical men who know and are able to do things. When the Panama canal was undertaken by our government it was known to be the greatest work ever done by human agency, but they had the means and able men to engineer the work through so as to overcome all obstacles and complete the work before the time first set. But the Stratton home is a different proposition entirely; there is no precedent to go by; the managers have to feel their way, so to speak, as they go on. About the original feature of cottages for the needy, would like to call attention to the cement cottages, as Editor has made the molds, and claims they can be made cheaper than of wood, and certainly would be more sanitary. The Stratton home will no doubt be foremost in the fight against tuberculosis, so in this connection I desire to call attention to the fact that the cow and tuberculosis are always found together. In the regions of Africa where cattle can live on account of the deadly disease, the goat furnishes all the milk and butter. This is unknown. This is not the idea that the doctor, by milk, furnish the virus for an antituberculosis serum. In our sanatorium only goat milk should be used.

In Europe the goat is the poor man's cow, and they are raised extensively. The Swiss goat is a large, rump-boned animal, and a great milk producer; frequently reach within an inch or two of the ground. Two good goats give as much milk as an ordinary cow, and require much less feed and care. The Stratton home has the funds to import a flock of these goats, which would be quite a feature of the institution. Our government imported reindeer from Siberia to save the Alaskan natives from starvation. There are about 70,000 to 80,000 of them, while we have a few millions of foreign laborers who have been raised on goat milk. These people must all have large families and many would buy goats if they could be had. Why could not our government also import Swiss goats and thereby greatly assist in the fight upon tuberculosis? In Europe many rich people keep goats for their children, even take the family goat along on their travels.

The industrial feature as planned by the Stratton home management has unlimited possibilities, and will be of great benefit to our boys and girls, teaching them a trade so as to fit them to make an honest living. It is sad to see a doctor's son who had no desire to study drive a grocery wagon or a foreigner black as there were no chance to learn a trade. The neediest boy in Germany has a chance to learn a trade and become a man, and go anywhere in the world to make a living. Germany has the best industrial schools known.

And now a pointer as to how some of those industries could be established at the Stratton home. In the Black forest of Germany are towns in which the manufacturing of clocks has been carried on for 200 years. Whole families all work at parts, and these clocks are shipped all over the world. In other localities of the Black forest hair-brushes are made; in the highlands of Switzerland, and in the Tyrol woodcarving is carried on; whole communities are at work at it during their long winters; children from 5 years old to grandfathers are doing splendid work. They seem to have developed a sixth sense, that of natural born carvers. In the Tyrol, where the people are deeply religious, they produce mostly religious articles, such as crucifixes, statues. When the winter is over they bring their products down to the larger towns to sell. They carry them on large light crates strapped on their backs. Some of these carvers have acquired local reputation for artistic work and have made individualism that the jobbers can tell who made the work.

**FROM OTHER PENS**

**DELINQUENT VOTERS**  
 From the Portland Evening Post.  
 Some of the western papers are commenting on the very small vote which was cast in Omaha recently in an election to decide whether the city should be governed under the commission plan. Less than one-third of the electorate decided for the city, the most important proposition which has come before it in recent years. There was this number only of enterprising citizens who cared enough for their city to try to help it.  
 Rich voters are certainly discouraging to those who wish the best things obtainable for their country. If a republic is to prosper its citizens must have an intelligent interest in all public affairs. How to cultivate that interest in the great majority is indeed somewhat of a problem.

**RELIGIOUS EXTENSION**  
 From the New York Evening Post.  
 System is to be the keynote of a home mission campaign which has been planned on an unprecedented scale and is now being set in motion with the impetus of great wealth behind it. Even the business of revivalism has its experts. Traveling bands of them are to visit every city and town in the United States and leave behind them local organizations charged with the immediate task of carrying on religious propaganda in accordance with the latest methods of scientific efficiency. It has always seemed to us that something more than card catalogues and index files are essential to a great religious awakening, and consequently we are pleased to see that among the fields of labor marked out for the new missionary movement, prominence is given to social welfare work and to "extension work among shop and factory employees." If the vital spirit is to be breathed into the church of today, the church must be found active and resolute in the work of social reform that has become to so many good men the modern substitute for religion. The problem of a spiritual awakening among the people is today social and economic as well as ecclesiastical.

**Sunflower Philosophy**

One day I called on Mr. Ayers, to sell some axle grease. He kicked me down three flights of stairs and sent for the police. And as I sat there, in sad plight, with broken legs and spine, "He served you just exactly right," remarked a friend of mine. "The man who tries to peddle junk until his bosom bleeds, few, indeed, want axle grease on life's and glooming shore, and when they do they'll go in peace to buy it at the store. It madden men to have some freak come on some busy day, and stand around and talk a week, and fail to go away. I'm glad so glad that Mr. Ayers has balked at this abuse, and pushed you down three flights of stairs, and kicked your back-bone loose. He well deserves a laurel wreath. I'm glad he broke your neck. I'm glad you've swallowed all your teeth. I'm glad you've had a polio. His words seemed bitter at the time, but they with sense were filled, the punishment should fit the crime, and peddlers should be killed."

**THE DAILY CHIT-CHAT**  
 BY RUTH CAMERON

"She was married by momentum."  
 I wonder of how many married women that might be said.  
 A pathetic little letter lies on my desk. It is from a young girl who has discovered that she does not love the man she is engaged to marry in less than two months.  
 "But what can I do?" she cries. "I have almost all my trousseau and most of my household things. My girl friends have given me showers, and we've even picked out the house and hired it, and we're beginning to talk about setting the actual date for the wedding. I've been afraid for two of three months that I might get engaged to that man who made me realize how badly I did feel. Why when we talked about actually being married on this day or that it just seemed as if everything went black. I felt as if I were being sentenced to prison. Isn't that a perfectly awful way for a bride to feel?"

"But what can I do? How can I break it off? What will people say? What will he say? Oh, Miss Cameron, sometimes when I wake up in the night and think it all over, I feel as if I were going crazy, or as if it must be all a terrible dream. But I can't possibly turn back, can I?"

I wonder what the other women who have been in that same position and have gone on would say. "I can't possibly turn back, can I?"

I am afraid they would laugh if they heard it—that terrible, bitter, melancholy laugh—the laugh of the girl that Dick painted in "The Light That Failed"—which is the saddest sound in the world.

"You think it takes more strength than you've got to stop now, they would say. 'Now how much strength do you think it's going to take to go on and live 48 or 50 or 60 years with a man you don't love?'"

One mistake never corrects another.  
 The horrible truth philosophy of our nursery rhyme doesn't work in real life.

This girl has made one terrible mistake in getting engaged to a man she doesn't love. She certainly can't correct it by making the even more terrible blunder of marrying him.

Let us, my dear girl—and any others who may be in a similar position—first, don't be swayed by any passing mood of resentment or overwrought nerves in this matter. Be sure you know your own mind this time. Give your feelings a reasonable test of time. But once you are sure, don't let any considerations of what people will say or what he will say have a feather's weight with you. Think how much worse things they would probably say at the divorce suit.

Go ahead and do what you know is right and best, and you will find strength for all the reprimands and embarrassments and misery of broken habits that can possibly come.

**Disease and Its Cure**  
 By EDDY WOLFF.

**DIPHTHERIA**

Diphtheria is caused by a germ. It is a dangerous disease of children, and is highly contagious. Every care must be exercised to prevent children from being exposed to it, or to people who have been near infection.  
 It manifests itself by an inflammation of the throat, with the appearance of patches of mucous. These spread and form what is known as "false membrane." The patches of mucous unite and form a hard obstruction in the throat of the little sufferer.  
 The parts of the throat that form its lining, and which are at once moist, become swollen, and beyond their natural color, the patient becomes weak and depressed, exhibiting an unquenchable thirst and distressing nervousness, loss of appetite and insomnia. The throat is very painful.  
 As if diphtheria were not enough for the little one to bear, there is always great danger of meningitis and Bright's disease accompanying the disease. Sometimes, weeks after an apparent cure has been effected, the child is stricken with paralysis from which it never recovers, even if it should live.  
 As soon as the child complains of its throat, an examination should be made. The white patches inside it should be isolated. The doctor should be consulted at once. If he diagnoses the case as diphtheria, it is well to place the patient in a room from which the curtains, carpets and other hiding places for germs have been removed. This is to prevent the disease from reaching the other children in the house. Those who nurse the patient should avoid ingesting the other children, and should not use the same dishes or utensils that the children use.  
 These precautions are urged for the safety of the children, although grown people are not immune from the disease, and equal care for them will be effort well exerted.

Where it is practicable it is advisable for the nurse to bathe thoroughly, even to the hair, before associating with other members of the family.

Too much care cannot be given to the prevention of diphtheria. It often leaves behind it effects that are worse than death.

Of recent years the number of deaths from diphtheria has decreased, due largely to the discovery of the diphtheria anti-toxin. Anti-toxin is a specially prepared product, and its usefulness has been proven beyond any doubt. It is expensive and sometimes difficult to secure. However, if the physician asks to be allowed to use it, all questions of expense should be forgotten and every effort made to procure quantity at once.

In diphtheria, as in every other disease, the doctor cannot cure with merely a prescription. The drugs he orders will only assist. Nature's orders of fighting off the attacking germs. Quite as much depends upon the care with which his orders are carried out in regard to nursing. The doctor is the superintendent. The family and nurses must make of themselves willing and careful workers to carry out his commands.

Against such a combination the germ has a lesser chance of continuing its destructive work. And, in nursing, there is no such thing as too much care. A sick child is entitled to all the care that human endeavor can give it.

**FATAL ACCIDENT AT SITE KANSAS CITY'S NEW DEPOT**

KANSAS CITY, Oct. 10.—Two men were killed and five others were injured by the premature explosion of 30 pounds of dynamite today at Twenty-third and Wyandotte streets in this city, where excavation for the new union station is being made. The dead: EDWARD DUNHOA, assistant blast foreman, aged 50 years. JOSEPH BERG, driller, aged 45 years.

The men were tampering the ground preparatory to setting off the blast when the accident occurred. Dunhoas and Berg were blown 150 feet in the air and their bodies, terribly mutilated, fell 250 feet away.

Joseph Haas, the blast foreman, worked for seven years for Governor Shubba of Kansas, when he was in railroad construction work.

**ELOPES WITH NIECE, BUT WIFE OBJECTS**

CHEYENNE, Wyo., Oct. 10.—Charles Raines, 21, and Edna Slusser, 20, who arrived here from Sterling, Colo., in an automobile, are under arrest, held at the request of the sheriff at Sterling, where Raines has a wife. The couple eloped from Sterling. Raines claims the Slusser girl is his niece, and that there was no impropriety in them traveling together. A message from Sterling, however, indicated that the pair eloped.

**SKATING RINK AT GREELEY**

GREELEY, Colo., Oct. 10.—By the cooperation of the people and the local newspaper, the boys and girls of Greeley will get a skating rink for which they have been asking in the "New Glen More park." Funds will be raised by students of the State Teachers college giving a play.

**SERIOUS WRECK IN SOUTH**

CORDELE, Ga., Oct. 10.—Twenty-one persons were hurt today when a sea-board airline passenger train from Helena to Columbus was partially derailed three miles east of Cordale.

**EDUCATOR SHOES FOR GROWING FEET**

Do you have the strength to do what God means for you and find the best happiness that he has in store for you?  
 You feel as if you were in a terrible dream. You are. And you can awaken yourself now. If you make the effort, but marriage would convert your dream into a reality from which you could never awake.  
 May you have the strength to do what God means for you and find the best happiness that he has in store for you.

**HARDY'S**  
 16 NORTH TEJON STREET

**IN THE EARLY DAYS**

**THIRTY YEARS AGO TODAY**  
 October 11, 1881.  
 Captain Anderson reported that the shaft at the Jimmy's Camp coal mine east of the city was down 300 feet and had struck a 10-foot vein of coal.  
 The sidewalk from the D. & C. G. station to the site of the new hotel (the first Anilers) was completed and the bringing in of building material was to start immediately.  
 W. C. Holmes of Table Rock was proudly exhibiting five potatoes that weighed collectively nine pounds. He said that he had 44 acres that could produce 8,000 pounds to the acre.  
 A Sutton and wife returned from a trip to Boston.

**TWENTY YEARS AGO TODAY**  
 October 11, 1891.  
 Rev. T. A. Boyer and Prof. S. A. Brown, the evangelists, held a service at Bellevue sanatorium.  
 Lieut. M. Nichols, of the Seventh Infantry, was at the Alamo with a squad of four men from Fort Logan. They had opened a temporary recruitment here.  
 Rev. W. J. R. Taylor—D. D. of Washington, D. C., preached at the First Presbyterian church.  
 President Slocum of Colorado college, spoke at the Second Congregational church on the "International Council in London."

**Seven Great Literary Workers**

History has always attached much importance to the Number Seven. "Of all numbers there is one which commanded, in a higher degree, the esteem and reverence of mankind." The Gazette has taken this charming number, and has woven into stories on a variety of subjects, a Series of Sevens, beginning each Monday and continuing during the week.

**No. 3—MARTIN LUTHER**

Among the literary men of the religious world, Martin Luther was no doubt the most indefatigable worker. He was a man of extraordinary power, energy and perseverance. His life may be said to embody the history of the Reformation in Europe. He was at once linguist, logician, preacher and politician. All the great movements of his time centered in him. He translated first the New Testament, and then the Old. He flooded the press, then in the infancy of its power, with tracts, treatises, and dissertations in defense of the liberty of inquiry and examination—the first great right; he held of the human understanding.

But his capacity for labor was not suddenly born, for industry had been the habit of his life. Speaking of himself at Wittenburg while still a monk, he said: "I had need to have two calendars to keep up my correspondence. I am a conventional confectioner, table, preacher, director of studies, I am vicar, or in other words 11 priors in one, conservator of the ponds at Lutzen, pleader and assessor at Torgau, Pauline reader and collector of psalms, and add to all these the assaults of the world, the flesh, and the devil." Work, energy and determination were the habitual conditions of his life. Nothing could hold him back when he saw the road of duty clear before him. He would go to Worms although there were as many devils there as the tiles upon the housetop.

By the time that he was 45 Luther had published little but after that he was not only the most copious, but the most popular writer in Germany. His first publication was characteristically entitled "Resolutions"—expressive of the energetic determination of the man whose life was really one long encounter with difficulties and perils. By the energy of his style, and the fire and vehemence of his convictions, he carried everything before him. His language adapted itself to every voice and every key—sometimes brief, terse and sharp as steel, at others with a mighty stream of words.

At the time Luther continued full of cheerfulness and good humor, taking infinite pleasure in his wife and family, and cheering up his friends and neighbors. He played the guitar and sang at the table. He said: "It is that art of the prophets, it is the only art which, besides theology, can calm the agitations of the soul and put the devil to flight." But this was not enough; he occupied some of his spare time in turning and clockmaking. He could never be idle. "When I am assailed with heavy tribulations," he said, "I rush out among my men rather than remain by myself."

Luther's robust humor of works was extraordinary. In three years he wrote and published 44 works, prepared to many of which were wood engravings after his own designs; and during the same time he was in correspondence with many of the leading minds of Europe. Luther managed the language of his mind, and his race and nation. He devoted himself to the cause of popular education; and what Germany has become must in so small degree be attributed to his present forthright and his individual influence.

For his contributions to hymnody Martin Luther deserves and receives the thanks of the Christian world. His activity in this direction included not only the writing of hymns but the compilation of hymnals, of which nine are on record, issued between 1524 and 1545. Five of these being revisions of his "Geistliche Lieder." These hymnals always contained a large proportion of his own compositions, the "Geistliche Lieder" of Wittenburg, 1545, containing 41 hymns of which he composed 23. His own hymns were not all new, some of them being translations from the Latin. Some revisions by predecessors in German hymns while others were variations of Psalms or paraphrases of other portions of Scripture.

To all Luther left 28 hymns, the most celebrated of which is his battle hymn "Nun dankt alle Gott" in our "Gott."

## JEALOUSY CAUSED SPRING GIRL TO CONFESS FRAUDS

It was by the seemingly accidental  
dropping of her fan that Alice Black,  
the Colorado Springs girl, arrested the  
other day in Bridgeport, Conn., for for-  
geries, managed to become acquainted  
with the person who accepted her as  
an heiress and made it possible for her  
to obtain large sums of money.  
This apparently unimportant clue is  
responsible for the unraveling of the  
whole story of Miss Black's invasion of  
the realm of high finance, according to  
a story that has been sent to the Den-  
ver office of the Pinkerton Detective  
agency.  
The narrative reads like fiction, but  
it is vouched for by the men who  
finally caused the arrest of Miss Black  
and Frajeles A. Mohler, the man of good  
address, who is said to have aided her.  
It was early in September, according  
to advices sent out by the Pinkerton  
men, that Miss Black, who is 19 years  
old, was dining in the Italian garden of  
the Hotel St. Charles in New Orleans.  
That dinner was the first really interest-  
ing event in the life of the young woman  
that appears in the story. At a near-  
table were three youths, who com-  
mented upon her beauty and the ex-  
quisite taste of her attire. Suddenly  
her fan dropped to the floor. One of  
the young men started to pick it up for  
her, when the other two stopped him  
and insisted that lots should be drawn  
for the honor.  
Miss Pullman of Pittsburgh.  
The one to whom the lot fell raised  
the fan and, with his best bow, gave  
it to the girl. She smiled and, mod-  
estly casting down her eyes, asked if  
he wouldn't sit down for a moment.  
He did.  
"You know," said the girl, "I feel that  
I am very unconventional, but I'm such  
a globe trotter, you know, that I feel  
perfectly safe in doing this. I've been  
all over the world alone. I'm Alice  
Pullman of Pittsburgh."  
The youth brought over his two com-  
panions to meet "Miss Alice Pullman,"  
a niece of the Pullman family.  
That was on a Saturday night. The  
following Monday "Alice Pullman" was  
asked one of her new-found friends if  
he knew of some "good, safe bank" in  
the city of New Orleans. He knew of  
the Whitney-Oriental bank and in-  
troduced her to Edward H. Keap, as-  
sistant cashier. "Miss Pullman" opened  
an account, depositing \$50 cash and  
what purported to be a \$150 certified  
check on the Union Savings bank of  
Pittsburgh, signed by Harry Pullman.  
The next day she drew out her entire  
account.  
On the following day she returned  
with another "Harry Pullman" check  
for \$75 which she wanted cashed. The  
cashier told her he would wait until  
he had heard from the previous check.  
Her Signal for Flight.  
"You won't have to wait long," he  
said, "because I'll telephone."  
"Yes, do," she answered, "and send  
the answer to the St. Charles."  
The answer came. It was "Forgery."  
But she had left the St. Charles by  
that time. It was found she had left  
New Orleans for New York with a man  
who said he was F. A. Christy, brother  
of Howard Chandler Christy, illus-  
trator.  
After the flight from New Orleans  
came a series of banks and hotels in  
Colorado Springs, Ogden, Salt Lake  
City, Sacramento, Los Angeles, San  
Diego and El Paso, Tex., that had  
cashed checks after the prelude of a  
falling fan or like device. The checks  
ranged from \$50 to \$150 apiece. The  
total was several thousand dollars.  
The Pinkertons took up the trail and  
traced the pair eastward to Bridgeport,  
Conn. In the other cities where the  
fan had been dropped the girl had  
seemed sometimes to blush with dia-  
monds. Especially noticeable was a  
large hatpin in the shape of a tiger's  
head, composed of imitation diamonds.  
Detective Fox of the Bridgeport police  
and two of the trailers saw a woman in  
Bridgeport wearing just such a pin.  
They followed her to a boarding house  
and there found her man companion.  
In one of their four suitcases, the police  
say, were blank checks of the  
Pittsburgh bank and the stamp with  
which the checks had been "certified."  
Man Keeps Silent.  
"Christy" or Mohler would not talk  
much about himself. He wrote a tele-  
gram to Harry Mohler of Pittsburgh, but  
the police did not send it.  
The young woman at first was silent.  
But the police showed her a postal  
card, sent to Mohler by a young woman,  
which showed Mohler had paid at-  
tentions to the sender. Then the girl  
broke down and said she would tell all  
she knew.  
She said she was a graduate of Culver  
academy in Colorado Springs and that  
she had planned to attend Colorado col-  
lege this fall. She was "Christy" in  
July, and he told her that he was a  
wood point student on a vacation.  
He had studied a prominent lawyer in New  
York, and was in Colorado this fall.  
"I believed his story," said the girl,  
"and became foolishly infatuated with him. Before I realized the  
foolishness of what I was doing he had  
induced me to leave my home. I was  
stuck with him and did not have  
the moral courage to go home."  
"My infatuation for him lasted only  
a week. Then I began to distrust the  
kind of man he was. He said he re-  
ceived a regular income from his  
mother by check, but she made out the  
checks in different names to throw off  
pursuit."  
She told of their bank runs through  
the west in which they used six dif-  
ferent names.  
It was when she became convinced  
that Mohler, or "Christy," was paying  
attentions to another woman that Miss  
Black admitted everything in con-  
nection with her work.

## Short Line Refuses to Give Increase in Pay; Meeting Is Harmonious

At a conference between Jesse  
Waters, general manager of the Short  
Line, and the committee from the  
Brotherhood of Locomotive Engineers,  
held in the railway offices last night  
in regard to the engineers' demand  
for an increase of 10 per cent in pay  
schedule, the Short Line again defi-  
nitely denied the increase.  
The meeting was harmonious and  
nothing whatever was said about a  
strike or federal arbitration. When  
General Manager Waters refused the  
committee's demands, the railroad men  
said nothing further than that they  
would call upon him again some time  
in the future.  
"We can't possibly give the increase  
they want," said Mr. Waters last  
night. "They have been told so time  
and again. The road cannot afford  
additional pay to its men. We con-  
sider that they are getting an equi-  
table remuneration for their services as  
it is."  
The engineers' committee was com-  
posed of J. A. Farquharson, E. Cor-  
rigan, E. P. Curtis and J. I. Ram-  
bright.

## COLLEGE MAY SELL LAND TO TEXAS CATTLE CO.

According to President William F.  
Stocum, Colorado college shortly will  
sell a part of the forestry school land,  
as was authorized by the trustees last  
June. The prospective buyers repre-  
sented a big cattle company of Texas  
and soon are coming to this city to  
look over the land.  
Although nothing definite is known  
as to the proposed consideration, it is  
thought to be about \$50,000. It is un-  
derstood that the Texas company,  
desirous of finding a suitable range for  
cattle, wants one near the Colorado  
market. The name of the company is  
withheld by the college authorities be-  
cause the deal has not been closed.  
The forestry summer school is lo-  
cated at Manitou Park, about 25 miles  
west of this city. The college is of-  
fering for sale about 3,000 acres of land  
and the hotel building. The forest  
land and the cottages, all that are  
needed by the school are being re-  
tained.

## FIGHT DUAL WITH SHOTGUNS

WENTON, O., Oct. 10.—William Yazel  
and Michael Hickman fought a formal  
duel here today with shotguns. Hick-  
man sustained serious abdominal in-  
juries and Yazel was wounded in the  
right arm. The men had been enemies  
for a long time and the duel was ar-  
ranged when they and some of their  
followers met.

## MONMOUTH, ILL., MURDER SUSPECT A TUBERCULAR

The person held at Monmouth, Ill.,  
and suspected of having committed the  
hatchet murders, the details of which  
resemble the Wayne-Burnham mur-  
ders of Colorado Springs, is a tuber-  
cular. This was learned in a letter  
received yesterday by J. A. Hime-  
baugh, commissioner of public safety,  
from G. C. Hillier, district attorney of  
Monmouth.  
"I do not think that the man who  
committed the murders here was re-  
sponsible for the murders at Colorado  
Springs," Mr. Hillier wrote in his let-  
ter, "but I believe that the question  
came from reading reports of your  
case."  
The tubercular suspect at Mon-  
mouth is a nephew of the man who was  
murdered with his wife and child.

## Away Goes Catarrh

Bristle-Scratching, Wringing Eyes,  
Relief in Five Minutes.  
What three Catarrh there's three  
kinds of catarrh. You can get  
rid of catarrh unless you kill the  
germs.  
You can't kill these germs with  
stomach medicine or sprays or douches  
because you can't get where they are.  
You can kill these germs with HY-  
GEM, a penetrating antiseptic air that  
you breathe a few times a day directly  
over the raw, sore, germ-infested mem-  
brane.  
For catarrh, asthma, croup, coughs,  
colds and catarrhal diseases Hygem is  
sold on 10¢ bottles. Complete  
cure \$1.00. Also bottles of HY-  
GEM. It's needed only 50¢ a day. Re-  
member, HY-GEEM does not contain  
anything, oil or any of the things  
that are sold by other people.

that are sold by other people.

## CITY WILL RE-WEIGHT POLICED NEXT WEEK

The working force of the local po-  
lice department will be more than  
doubled during the International Dry  
Farming congress, according to in-  
structions given out yesterday by J.  
A. Himebaugh, commissioner of pub-  
lic safety and acting chief of police,  
and his assistant, Harry Springer.  
This means that more than 60 men  
will be used in watching the depots,  
guarding the exhibits and patrolling  
the streets. In addition, the officials  
of the Rock Island, Santa Fe, Missouri  
Pacific, Denver & Rio Grande, Colorado  
& Southern and other railroads have  
promised that they will send at least  
two special agents for each line to  
Colorado Springs to aid in watching  
the railroads.  
"I do not believe that the dips and  
confidence men will attempt to come  
in with such a crowd," Springer said  
yesterday, "but we are going to be on  
the safe side and look out for such  
men. If we find them, we are going  
to put them away until after the con-  
gress is over."  
There will be several Pullman cars  
in the railroad yards during the week,  
and plans are being made to give ex-  
tra lighting facilities in the railroad  
districts while the visitors are here.  
Commissioner E. W. Frost and  
Health Officer O. R. Gillett gave as-  
surance yesterday that the city, tents  
and railroad yards will be kept in a  
sanitary condition.

## Be Good to Yourself

### Dr. Williams' Pink Pills

Mrs. Charles E. Fish, aged 37, 115  
West Cheyenne road, died Monday  
evening. She is survived by her hus-  
band and daughter. Funeral arrange-  
ments have not been made.

Funeral services of Frederick H.  
Collins, aged 74, who died at a local  
hospital Monday night, will be held  
from the undertaking rooms of Fair-  
leys & Law today at 2 p. m. Inter-  
ment will be in Evergreen cemetery.

Mr. Collins, who was well known in  
this region, is survived by two  
daughters, Mrs. W. L. Kirkwood of  
this city and Mrs. A. T. Rowe of Den-  
ver.

### Miss Dorothy N. Hayes

### Weds Lieut. W. E. Madden

Lieut. W. E. Madden, United States  
navy, who has been at the Star ranch  
south of this city for the last four  
months, and Miss Dorothy N. Hayes  
of Newark, N. J., were married at the  
Brown Palace hotel in Denver yester-  
day afternoon.  
Lieutenant Madden motored to Den-  
ver with Maurice F. Wiklund, pro-  
prietor of the ranch, who was one of  
the witnesses at the wedding. Lieu-  
tenant Gordon of the naval hospital at  
Yas Animas, a shipmate of Madden for  
several years, was the other witness.  
The bride and groom will motor back  
to this city to spend their honeymoon  
at the Star ranch.  
Miss Hayes and Lieutenant Madden,  
whose home is in Dennison, Tex., al-  
though he has been in the navy for the  
last eight years, were engaged for

from Royal Grape Cream of Tartar**

The Young Women's Christian association is seeking to call the attention of all women in the city to the morning classes for cooking and sewing, now being organized at their rooms, 320 De Graff building. The evening classes are primarily for those who are otherwise occupied during the day, but it has seemed probable that there are many women of comparative leisure who would like to avail themselves of the opportunity to study with Miss Elizabeth Todd and who would find it impossible to attend an evening class. Classes have therefore been arranged to meet in the morning as follows: A cooking class on Tuesday at 9.30 a. m. will give opportunity to study measure and ingredients, care of the dishes, and vegetables, composition and classifications of foods, principles underlying the processes of cooking as a science. Two or more recipes will be studied at each lesson. This should appeal to all homemakers and housekeepers. Sewing class Wednesday at 9.30 a.

As a leader among the higher critics Professor Bacon naturally has but little sympathy with those who would discredit the critical method by saying that they "cut out" this or that, "reject" this or that, retaining the remainder "If he did this and nothing

NEW ORLEANS, La., Oct. 10—An earthquake of considerable intensity and estimated to be 2,000 miles southeast, probably in or near Ecuador, was recorded this morning on the seismograph at Loyola university.

The Y. W. C. A. educational classes for the fall term will open next Monday and will continue on January 27. The classes of domestic science and art will be conducted by Miss Elizabeth Todd who studied these subjects at Illinois Women's college, and who also possesses a diploma from Teachers college, Columbia university.

Social events will be held two Friday evenings of each month. On the evening of October 13, Miss Mattie May Bennett will give an exhibition of Indian club swinging, and will give illustrations of the work she is planning for the evening classes. On the same evening Miss Martea Gould Powell will tell the story of "The Land of the Blue Flower," by Frances Hodgson Burnett. Miss Powell is a graduate of a school of expression in Boston, and formerly of the English department in Denver university. A moving picture show will be given October 27 and an evening of popular music will be held on November 10. All young women are invited to these events.

## SOME OF THE CURBS WHO MEET THE WHITE SOX FOR CHICAGO'S BASEBALL CHAMPIONSHIP

able to get into a game and have one of his good days, and that will mean another victory for New York. I think the weak spot is in their catching, for the 'Big Chief' has shown himself to be nervous in tight places. Just the same, if his 'team gets away first, the Indians are likely to gain all the confidence in the world and be the star of the game."

Johnny Evers was the only one who gave the American leaguers a shade the better of it, and he qualified his statement by making it known at once that he was pulling for the Glants. "The figures the Athletics are a bit older and more experienced," said John, "and for that reason are likely to stand up better under the strain. Of course, a lively crowd the Glants might turn things the other way. The Cubs were injured

SHAW, HIGGINS, N. Y. Oct. 20.—The west was dispirited from the women's national golf championship at the Bakersfield golf club today. In the first round, Miss H. W. Macomber of Chicago was decisively beaten by Miss Dorothy Campbell, the title holder, 4 up and 7 to play, while Miss Mary Tiehmer, the Midwestern record holder, fell before the steady golf of Miss Kate Harlow of Wall River, Minn.

"While Frank Chance asked for waivers on First Baseman Sater some time ago, it is unlikely that the Peerless Leader will turn the youngster back to the minors until something better develops. Sater has been playing fine ball of late. Chance has the habit of flourishing an indolent by a slight good."

**The Same Old Trick**

Last year when we received our car of grapes, the Colorado Springs Produce Trust reduced their price 6c per basket and as soon as our grapes were all sold they raised the price 6c.

This year our first carload arrived at a time when the Trust had no grapes and we sold the car in a few hours, but as soon as we advertised our second car yesterday, they reduced the price 5c per basket, and enlisting the services of those grocers who believe in PROTECTIVE PRICES and who are afraid to try to handle a car of grapes, are endeavoring "to teach Bridger a lesson" and incidentally cause him to lose a few hundred dollars for daring to buy a carload of grapes and attempting to retail at a lower price than their combination wholesale price.

BUT the consumers know that this is the only store that wants or dares to break any combination, and are buying their grapes from us. Although we do not expect to make money on these grapes, we do not intend to lose several hundred dollars as predicted by the Trust, and will have the satisfaction of seeing the wholesalers as well as the retailers following where we lead.

Today We Sell the Balance of 3,100 Baskets Fancy Concord Grapes at

**20c** Basket at store  
2c more if delivered.

Our grapes are from New York, are superior to the Michigan grape and usually sell for 2c or 3c more per basket.
